S2. BASIC LOCAL EXCHANGE SERVICE

S2.1 GENERAL

- A. Basic local telephone service is provided by means of station, wire, switching and other facilities, and plant and equipment to enable the establishment of telephone communications between stations in the same or different exchanges at monthly rates. A maximum of seven (7) digits or frequency pulses will be provided by the Telephone Company for completion of local service or extended area service. The rates for local exchange service apply to all customers. The facilities used to provide such basic local telephone service are also used in the furnishing of long-distance telephone services at rates applicable for such services.
- B. The base rate area for each exchange is found on maps located in Section 11 of this Price List.
- C. The rates for service not specifically shown in this section are presented in other sections of this Price List.

S2.2 BASIC LOCAL SERVICE RATE GROUPS

S2. BASIC LOCAL EXCHANGE SERVICE

S2.7 LOCAL AND NATIONAL DIRECTORY ASSISTANCE

A. General

National Directory Assistance (NDA) will provide the Customer with directory listings from Hayneville Fiber Transport, Inc. d/b/a Camellia Communications Directory assistance database. This database will make all Camellia Communications listings available to any operator workstation along with national listings from other provider database(s). Camellia will provide listings for residential, business, government, Camellia 1-800/877-888, and Camellia local emergency numbers. Customer Name and Address (CNA) Service is a reverse search feature which allows the caller to request a customer's name and/or address after giving the directory assistance operator a complete telephone number.

B. Regulations

1. The customer will receive a maximum of two listings per call, *i.e.* two NDA numbers, one NDA number and one CNA listing or two CNA listings. No call allowances apply to NDA or CNA service.
2. Customers who make operator assisted calls (0+411) to National Directory Assistance or to obtain Customer Name and Address Service will be charged the NDA/CNA rate plus the applicable operator surcharge.
3. The Company shall not be liable for any errors or for omissions, whether arising through negligence or otherwise, in the information furnished; and the customer shall indemnify and save the Company harmless against all claims (including costs and attorney's fees) that may arise from the use of such information.
4. The customer will have access to any number/address listing within the continental United States, Alaska and Hawaii with the exception of non-published listings. When a nonpublished number/address is requested, the message "Non-published number/address" or "NP" is displayed and no information will be available.

S2. BASIC LOCAL EXCHANGE SERVICE

S2.7 LOCAL AND NATIONAL DIRECTORY ASSISTANCE (Cont'd)

B. Regulations (Cont'd)

5. Charges for National Directory Assistance/Customer Name and Address Service are not applicable to residence customers who are unable to use a telephone directory because of a visual or physical handicap which can be confirmed by a physician, appropriate group or agency. If National Directory Assistance and Customer Name and Address Service will be available where technology permits.

C. Rates

For each call to the National Directory Assistance/Customer Name and Address Service \$1.30

S2.7.1 DIRECTORY ASSISTANCE CALL COMPLETION SERVICE

A. Description of Service

1. Directory Assistance Call Completion (DACC) is an optional service provided to users of Directory Assistance (DA) Service. DA customers may choose to have the telephone number they are requesting dialed by the DA Operator System.
2. The service is available to Business and Residence customers except as limited in this section.
3. Individual message detail is not included as a part of this service.
4. The service is available only where billing and network capability exists.
5. Customers may request blocking of DACC calls originating from their telephone lines by contacting the local Company Business Office.

B. General Regulations

1. The service is not subject to concessions.

PRICE LIST

First Revised Sheet 6

S2. BASIC LOCAL EXCHANGE SERVICE

S2.8 DUAL PARTY RELAY SYSTEM

A. GENERAL

Dual Party Relay Service permits hearing and speech impaired users of Telecommunications Devices for the Deaf (TDD) to communicate with users of ordinary telephones. Communication takes place by relaying conversations (voice to TDD and TDD to voice). These calls are between one party who must communicate by means of a TDD and another who communicates by means of an ordinary telephone. Messages are rated from the rate center of the calling party to the rate center of the called party.

B. RATES

Each customer is billed a monthly fee of .15 per month. This charge is billed to all customers regardless whether a particular customer needs or utilizes Dual Party Relay service.

S2.9 LATA-WIDE AREA CALLING SERVICE

A. General

1. LATA-wide Area Calling Service is an optional offering that provides seven-digit dialing to any exchange in the Montgomery LATA (334 area code).
2. This service is not available to coin telephone service subscribers and does not cover minutes used placing calls to directory assistance services.
3. For billing purposes, all calls are rounded up to the next full minute.

B. Rates

S2.9.1 LATA-WIDE CALLING SERVICE PLUS

A. GENERAL

1. LATA-Wide Area Calling Plus Service is an optional offering that provides seven-digit dialing to any exchange in the Montgomery LATA (334 area code).
2. This service is not available to coin telephone service subscribers and does not cover minutes used placing calls to directory assistance services.
3. For billing purposes, all calls are rounded up to the next full minute.

B. RATES

LATA-Wide Calling Plus Service gives the customer the advantage of purchasing a total of 3600 minutes of calling per month in the 334 area code at a flat price. This price includes calls placed at any time of day, twenty-four hours a day, seven days a week. Any calls placed after the exhaustion of those 3600 monthly minutes are timed at a flat rate.

	Residential	Business
First 3600 minutes (60 Hrs.)	\$18.00	\$25.00
Overage per minute rate	\$.05	\$.05

S2.10 CLASSROOM COMMUNICATION SERVICE

A. General

1. Classroom Communication Service provides local access service for in-classroom voice and data communications. It is intended only as a communications link between classrooms for the purpose of enhancing the education process by allowing one or more teachers to conduct classes at multiple locations and to access various information databases.
2. This access line will not be used for administrative purposes.
3. Directory listings will not be provided.

PRICE LIST

Hayneville Fiber Transport, Inc.
d/b/a Camellia Communications

Section 2
Second Revised Sheet 8

S2. BASIC LOCAL EXCHANGE SERVICE

S2.10 CLASSROOM COMMUNICATION SERVICES (Cont'd)

B. Conditions

1. This service is available to full time educational institutions, public or private that are eligible for accreditation by the Southern Association of Colleges and Schools.
2. All rates and regulations appearing in other sections of this Price List apply unless otherwise stated herein.

C. Rates

1. The rates and charges for Classroom Communication Services include a monthly recurring access line rate of \$20.00
2. Calls outside the base rate area will be billed at regular area calling service rates of toll rates, whichever is applicable.
3. Applicable service connection charges contained in S6. of this Price List apply.

S2.11 LIFELINE ASSISTANCE PROGRAM

Lifeline Assistance is a government assistance program developed to reduce rates for primary residential telephone service and broadband Internet access service to qualifying subscribers who receive income-based benefits. The Company participates in this program to increase the availability of telecommunications services to all consumers in its serving areas.

A. General

Lifeline Assistance reduces an eligible customer's monthly rates for basic voice telephone service or broadband Internet access service. An eligible customer receives one federally subsidized credit per month toward the cost of voice telephone service or broadband Internet access service.

1. The broadband Internet access service must have a minimum broadband speed of 10 Mbps downstream/1 Mbps upstream and a minimum usage allowance of 150 Gigabytes per month. Dial-up service does not qualify as a broadband Internet access service for purposes of Lifeline Assistance.

PRICE LIST

Hayneville Fiber Transport, Inc.
d/b/a Camellia Communications

Section 2
Second Revised Sheet 9

S2. BASIC LOCAL EXCHANGE SERVICE

S2.11.1 Lifeline Assistance (Cont'd)

B. Regulations

To constitute a qualifying low-income customer eligible to receive Lifeline services, a customer must meet the requirements set forth in either paragraph 1. or 2. below:

1. A customer's household income must be at or below 135% of the Federal Poverty Guidelines for a household of that size;
 - a. For purposes of these rules, "income" means gross income as defined under Section 61 of the Internal Revenue Code, 26 U.S.C. § 61, for all members of the household. This means all income actually received by all members of the household from whatever source derived, unless specifically excluded by the Internal Revenue Code, Part III of Title 26, 26 U.S.C. § 101, *et seq.*
 - b. A "household" is any individual or group of individuals who are living together at the same address as one economic unit. A household may include related and unrelated persons. An "economic unit" consists of all adult individuals contributing to and sharing in the income and expenses of a household. An adult is any person eighteen (18) years or older. If an adult has no or minimal income, and lives with someone who provides financial support to him/her, both people shall be considered part of the same household. Children under the age of eighteen (18) living with their parents or guardians are considered to be part of the same household as their parents or guardians.
2. Lifeline Assistance is also available to all qualifying residential customers who participate in one of the following low income assistance programs. A subscriber will also be considered to be eligible even if he does not personally participate in any of the following programs, so long as an individual who lives in his household participates in at least one of these programs:

S2. BASIC LOCAL EXCHANGE SERVICE

S2.11.1 Lifeline Assistance (Cont'd)

B. Regulations (Cont'd)

2. (Cont'd)

- (a) Medicaid
- (b) Supplemental Nutrition Assistance Program (SNAP)
- (c) Supplemental Security Income (SSI)
- (d) Federal Public Housing Assistance (FPHA)
- (e) Veterans and Survivors Pension Benefit

- 3. In addition to meeting the qualifications provided in paragraph 1. or 2. of this section, in order to constitute a qualifying low-income customer, a customer must not already be receiving a Lifeline service, and there must not be anyone else in the subscriber's household subscribed to a Lifeline service.
- 4. Qualifying subscribers must provide the Company with acceptable documentation as proof of their eligibility to receive Lifeline service under the income-based or program-based requirements; the documentation must be securely retained by the Company. If the Company has a reasonable basis to believe that the subscriber no longer meets the qualifying criteria for Lifeline service, the Company must notify the subscriber of impending termination of the subscriber's Lifeline service in writing separate from the subscriber's monthly bill. If the subscriber fails to provide proof of eligibility within thirty (30) days following the Company's written request to the subscriber to recertify eligibility, the credit will be discontinued on the bill and the subscriber will be de-enrolled from the Lifeline program within five (5) business days after the expiration of the subscriber's time to respond to the request.
- 5. If the Company receives notification from the program administrator that the subscriber is receiving Lifeline service from another eligible telecommunications carrier or that more than one member of a subscriber's household is receiving Lifeline service, the subscriber will be de-enrolled from Lifeline Assistance without notice within five (5) business days following the Company's receipt of the program administrator's notification.

Second Revised Sheet 11

S2. BASIC LOCAL EXCHANGE SERVICE

S2.9 LIFELINE ASSISTANCE PROGRAM (Cont'd)

B. Regulations (Cont'd)

6. The Company will confirm a subscriber's continued eligibility to receive Lifeline service on an annual basis by requiring the subscriber to sign a certification as to his/her present qualifications for Lifeline service. The Company must notify the subscriber in writing separate from the subscriber's monthly bill that failure to respond to the recertification request will trigger de-enrollment. If the subscriber fails to provide proof of eligibility within sixty (60) days following the company's written request to the subscriber to recertify eligibility, the credit will be discontinued on the bill and the subscriber will be de-enrolled from the Lifeline program within five (5) business days after the expiration of the subscriber's time to respond to the recertification efforts.
7. A subscriber who requests de-enrollment must be de-enrolled by the Company within two (2) business days after the request.
8. The Company will not provide Lifeline benefits to subscribers who:
 - a. have used the Lifeline benefit to enroll in a qualifying Lifeline-supported broadband Internet access service offering with another Lifeline provider within the previous twelve (12) months; or
 - b. have used the Lifeline benefit to enroll in a qualifying Lifeline-supported voice telephone service offering with another Lifeline provider within the previous sixty (60) days.
9. A subscriber may receive Lifeline benefits prior to completion of the twelve (12)-month period or the sixty (60)-month period only if:
 - a. the subscriber moves his residential address;
 - b. the subscriber's current provider ceases operations or otherwise fails to provide service;
 - c. the provider has imposed late fees for non-payment greater than or equal to the monthly end user charge for the supported service; or

Section 2
Second Revised Sheet 12

S2. BASIC LOCAL EXCHANGE SERVICE

S2.9 LIFELINE ASSISTANCE PROGRAM (Cont'd)

B. Regulations (Cont'd)

9. (Cont'd)

- d. the subscriber's current provider is found to be in violation of the FCC's rules during the twelve (12)-month period, and the subscriber is impacted by the violation.

If the subscriber transfers his Lifeline benefit pursuant to this paragraph, the subscriber's Lifeline benefit will apply to the newly selected service until the end of the original twelve (12)-month period, and the subscriber will not be required to recertify until the end of the original twelve (12)-month period. The subscriber's original provider must provide the subscriber's eligibility records to either the subscriber's new provider or the subscriber to comply with the twelve (12)-month service period.

10. The Company will process all applications and apply the appropriate credit on the customer's monthly bill. A secondary service charge is not applicable for existing customers who subscribe to Lifeline Assistance.
11. As a participant in Lifeline Assistance, customers are eligible to receive Toll Limitation Service at no charge for any Lifeline voice telephone service that charges a fee for toll calls, either domestic or international, that is in addition to the monthly price of the subscriber's Lifeline service. This service will only be provided at the subscriber's request and is limited to plans that distinguish between local and long-distance calling.
12. Local service deposit requirements will be waived for customers who voluntarily receive Toll Limitation Service.
13. Participants in Lifeline Assistance shall not be disconnected from Local Service for non-payment of toll charges. In addition, the Company will not deny re-establishment of local service to customers who are eligible for Lifeline Assistance and have previously been disconnected for non-payment of toll charges.

PRICE LIST

d/b/a Camellia Communications

Section 2
Second Revised Sheet 13

S2. BASIC LOCAL EXCHANGE SERVICE

S2.9 LIFELINE ASSISTANCE PROGRAM (Cont'd)

B. Regulations (Cont'd)

- 14. Partial payments that are received from Lifeline voice telephone customers will first be applied to local service charges and then to any outstanding toll charges.
- 15. Lifeline subscribers may apply their Lifeline discount to voice telephone service, broadband Internet access service, or a bundle of broadband Internet access service and voice telephone service; and plans that include optional calling features, such as, but not limited to, caller ID, call waiting, voicemail, and three-way calling. The Lifeline discount may also be applied to family shared data plans. The calling plan must be in the name of the eligible subscriber, and a household may receive only one Lifeline supported service. Partial payments from Lifeline subscribers purchasing bundled packages or packages containing optional calling features will first be applied to pay down the allocated price of the Lifeline supported services.
- 16. The PICC will not be billed to Lifeline customers who subscribe to toll blocking and do not presubscribe to a long distance carrier.

C. Credit

The following monthly credit will apply for each customer eligible for Lifeline Assistance:

	<u>Monthly Credit</u>
Federal Credit	\$9.25

The maximum Lifeline Assistance credit available to Alabama customers is \$9.25 per month.

Credit amount will not exceed the basic charge for local telephone service, which includes the Subscriber Line Charge, access line and local usage, or for the Company's listed charge for the subscribed service offering or for similar offerings subscribed to by customers who do not qualify for Lifeline Assistance.

S3. SERVICE CONNECTION CHARGES

S3.1 GENERAL

- A. Service charges are the nonrecurring charge or charges applied to the services ordered or connected into service at the customer's request. These include charges for initial commencement of service, changes, restoration, and rearranging of service or facilities.
- B. Service charges may be paid under one of the following plans, at the option of the subscriber.
 - 1. Plan 1 Payment in full at the time service is requested.
 - 2. Plan 2 Payment in full, on first month's billing.
- C. In all cases where special or unusual construction or installation is required, such charges are in addition to the prescribed service charges.

S3.2 DEFINITIONS

- A. Service Order Work Charge: The charge that applies for work performed by the Company in connection with the receiving, recording and processing of customer requests for service.
 - 1. Primary Service Order: The service order charge associated with the establishment and or rearrangement of service.
 - 2. Secondary Service Order: The service order charge associated with the processing of a change requiring record keeping only.
- B. Central Office Line Connection charge: The term "Central Office Line Connection Charge" applies to the charge for arranging an exchange line to provide service between the central office and the customer's premises and/or other premises where the service is to be terminated.
- C. Premises Visit: One charge applies for all work ordered and requested to be completed at the same time on the same premises.
- D. Insufficient Funds Charge: The charge applied each time a check, electronic funds transfer, or bank draft is returned for the reason of insufficient funds or no account.

S3. SERVICE CONNECTION CHARGES

S3.2 DEFINITIONS (Cont'd)

- E. Installation Charge: The charge applied to the provision of certain items of equipment or facilities and is in addition to applicable service charges. These charges are identified and presented throughout this Price List as a part of the offering.
- F. Restoration and Suspension Charge: The charge applied for restoration of service after suspension for nonpayment or to the suspension of service temporarily at the request of the customer.
- G. Number Change Charge: The charge applied when a customer requests a change in their telephone number.

S3.3 APPLICATION OF SERVICE CHARGES

A. GENERAL

- 1. Service charges as used herein and in other sections of this Price List are applicable to the ordering, connecting, moving, changing, rearranging and furnishing of telephone service and other telephone facilities and service. The charges apply as follows except as provided hereinafter in other sections of this Price List.
- 2. Service order charges are applicable to the following services:
 - All classes of Basic Local Exchange Service
 - Coin Telephone Service
 - Telephone Answering Service
 - Mobile Telephone Service
 - Private Branch Exchange Service
 - Key and Push Button Service
 - Directory Listings
 - Miscellaneous Service Arrangement and Auxiliary Equipment
- 3. Where the service desired necessitates the use of more than one item of service subject to the service charge, the total charge is the sum of the separate service charges for each item of service furnished except as hereinafter provided.

S3. SERVICE CONNECTION CHARGES

S3.3 APPLICATION OF SERVICE CHARGES (Cont'd)

A. GENERAL (Cont'd)

4. When service is re-established at a location which has been destroyed or made untenable by fire, wind or flood, service charges for connection, move or change do not apply when service is re-established within a reasonable time. If the subscriber desires service at a new location for a temporary period, service charges for connection will apply for the establishment of service at a temporary location but no service charge will apply when service is reestablished at the former location.
5. Service charges may be paid at the time of application of service or as otherwise provided herein.
6. Service charges apply to installations changing or adding touchtone service, custom calling features, number changes or any other miscellaneous service as specified in this Price List.

B. APPLICATION

1. Primary Service Order - Applies per customer request for work performed by the Company for the same account. Where more than one account is located at the same premises, work in each individual account will be considered separately.
2. Secondary Service Order - Applies per customer request for changes in existing service. The charge is specified when applicable to a particular service. This charge is applied to changes in miscellaneous directory listings, credit card applications, custom calling features, touchtone service, and O.C.P.
3. Central Office Line Connection Charge – Applies for work in the central office necessary to effect customer requested changes in service, and changing connections in distribution facilities between the central office and the customer's premises, including necessary cross connections and line and station transfer.
4. Premises Visit - Applies for all work ordered and requested to be completed at the same time on the same premises.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS

S4.1 CUSTOM CALLING SERVICES

A. DEFINITIONS

1. Call Waiting - This feature signals a subscriber talking on his line that another call has been placed to his line. Call waiting allows the first call to be put on hold while the second call is answered.
2. Call Forwarding - With this feature all incoming calls are forwarded to another telephone number. This arrangement may be activated by dialing a code and the telephone number of the service to which calls are to be forwarded and is deactivated by dialing another number. The call forwarding customer is responsible for the payment of any applicable message unit charge or direct distance dialed message toll charge for each call between his Call Forwarding telephone and the telephone to which the call is being forwarded. The charge applies to all calls that are answered at the telephone to which the calls are being forwarded, including person-to-person and collect calls even though they may not be accepted at the answering service.
3. Three-Way Calling - This feature enables a third party to be added to a two-way conversation without operator assistance. Normal transmission performance quality cannot be guaranteed on all calls.
4. Speed Calling - This feature provides for the calling of a 7 or 10 digit telephone number by dialing an abbreviated code. This arrangement is available in an eight-number capacity.
5. Revertive Calling - This feature enables a subscriber with a private line to ring his extensions, including off-premises extensions, by dialing a number.
6. Call Wake-Up - This is an arrangement by which a subscriber dials a 2-digit code that allows him to program a wake-up time by a 24-hour clock. The telephone will then ring back the subscriber at the pre-programmed time.
7. Cancel Call Waiting - This arrangement will allow a Call Waiting subscriber to disable the Call Waiting feature of their telephone for the duration of a telephone call. The subscriber dials a code prior to placing a call to temporarily disable the Call Waiting feature.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS

S4.1 CUSTOM CALLING SERVICES (Cont'd)

A. DEFINITIONS (Cont'd)

8. Speed Calling 30 - This provides for the calling of a 7 or 10 digit telephone number by dialing an abbreviated code. This arrangement is available in a thirty number capacity.
9. Shared Speed Calling - This arrangement allows 2 or more subscribers to "share" a speed calling list by notifying the telephone company which other telephone numbers will be involved in this arrangement.
10. Do Not Disturb - Do Not Disturb allows a subscriber to prevent incoming calls from ringing his/her line by diverting them to a tone or recorded announcement (RCAN).
11. Ringmaster - This feature enables two or three telephone numbers to share the same line. A unique ringing pattern is provided for each of the additional numbers so that the customer can determine which telephone number the calling party has dialed. Unique call waiting tones may also be provided.
12. Call Transfer - This is an arrangement that enables a subscriber to receive or originate calls on their number and transfer that call to a second number. This is done by a switchhook of the receiver button and dialing the third party's number. The subscriber hangs up the phone leaving the two parties connected. Call transfer can only be used in connection with individual line service and both lines must be served out of the same central office.

B. GENERAL

1. The services are limited to those areas served by central offices for Custom Calling Services and are subject to the availability of facilities. Custom Calling Services are only available on lines equipped for touch-tone service.
2. Custom Calling Services are available to residence and business customers only.
3. No assurance can be given that transmission will be fully satisfactory during conference and call forwarding calls.

S4.2 TELEPHONE NUMBERS IN ROTARY (Trunk Hunting)

A. GENERAL

1. Trunk Hunting Numbers are telephone numbers, which may be utilized by subscribers having more than one central office line. These numbers function in such a manner that when the first of such numbers is dialed, that number will be rung if it is not busy. If it is busy, the second number will be rung if it not busy, etc.
2. Trunk Hunting Numbers may be utilized where more than one central office line is used by:
 - a. Multi-line Business subscribers.
 - b. Key System subscribers.
 - c. PBX subscribers.
3. All charges, including both local and long distance, are charged to the first number in the series, unless other special arrangements are made.
4. Only the first number is ordinarily listed in the telephone directory. See also Section 27 in this connection.

B. RATES

1. Rotary Hunting Per Line \$5.95/month

S4. MISCELLANEOUS SERVICE ARRANGEMENTS

S4.3 TOLL RESTRICTION SERVICE

A. GENERAL

1. The service is one party with Dial "1" outward toll restriction and collect and third number inward toll restriction. Outward toll is allowed for credit card, collect or third number billing through Dial "011 access. 110" + toll is also available.
2. The service is offered in exchanges subject to the availability of the appropriate equipment.
3. Inward Collect Call and Inward Third Number Charge Restriction may not be available for calls placed from certain geographical locations.
4. Toll Restriction with PIN will provide the capability for a customer to dial a specific code (customer defined) that would toggle the customer's line from "Toll Restricted" (*i.e.* not allowed) to "Toll Allowed" on a per call basis.

B. RATES

		Monthly Rate	
		Business	Residence
1.	"1" + outward Toll Restriction	\$4.50	\$2.50
2.	Inward Collect Call	N/C	N/C
3.	Inward Third Number Charge Restriction	N/C	N/C
4.	"0" + toll restriction	\$4.50	\$2.50
5.	Toll restriction with PIN	\$5.75	\$3.75

If more than one of the above services is applicable the subscriber will be charged only for the higher rated service.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS

S4.4 REMOTE CALL FORWARDING

A. GENERAL

1. Remote Call Forwarding (RCF) is a service whereby a call placed from a station (the originating station) to a customer's (the RCF customer) telephone number (the call forwarding location) is automatically forwarded by Telephone Company central office equipment to another station designated by the RCF customer (the terminating station).
2. Remote Call Forwarding service is offered subject to availability of suitable facilities.
3. RCF service is not offered where the terminating station is a coin telephone.
4. The Telephone Company will not provide identification of the originating telephone number to the Remote Call Forwarding customer.
5. Transmission characteristics may vary depending on the distance and routing necessary to complete the remote forwarded call.
6. Remote Call Forwarding is not represented as suitable for satisfactory transmission of data.
7. Call Forwarding should not be offered as a feature at the RCF terminating station.
8. Remote Call Forwarding is provided on the condition that the customer subscribe to sufficient RCF features and facilities to adequately handle calls to the RCF customer without interfering with or impairing any services offered by the Telephone Company. If, in the opinion of the Telephone Company, additional Remote Call Forwarding features at the call forwarding location or facilities at the terminating station line are needed, the customer will be required to subscribe to such additional RCF features and facilities. In the event the customer refuses to subscribe to such additional RCF features and facilities said customer's RCF service shall be subject to termination.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS

S4.4 REMOTE CALL FORWARDING

A. GENERAL

- 9. When the Call Forwarding number is to be located in a multi-office exchange, the Company will determine the serving central office.
- 10. The minimum contract period for this service is two months.

B. RATES

- 1. The following charges are for the Remote Call Forwarding feature and additional access facilities only and are in addition to applicable charges for service and equipment with which it is used.

a.	Monthly Rates	Residence	Business
		\$14.00	\$14.00

b. Nonrecurring Charges

- (1) A one time charge will be assessed for implementation of service. A central office line connection charge and secondary service order charge will apply.

Changes at the request of the customer in either the number at the call forwarding location or the number to which calls are forwarded to will be assessed a central office line connection charge and secondary service order charge.

- (2) The message charges applicable to remotely forwarded calls shall be comprised of two separate charges; (1) a charge for that portion of the call from the originating station to the call forwarding location, and (2) a charge for that portion of the call from the call forwarding location to the terminating station.

The respective charge for each such portion shall be as follows:

S4. MISCELLANEOUS SERVICE ARRANGEMENTS

S4.5 OFF PREMISES SERVICE STATION

A. GENERAL

An auxiliary station is an additional station connected on the same circuit as the main station, and having the same number as the telephone station.

B. CONDITIONS

1. Off premises extension, *i.e.*, extension stations located on premises other than that on which the main station is located, may be permitted in exceptional cases to meet the service requirements for public health and safety and other exceptional cases. Such installations will only be permitted where, in the judgment of the Telephone Company, its facilities are suitable and available and the service will not be adversely affected. Where such service is furnished, the following rates and conditions apply:
2. In addition to the regularly authorized rate for extension stations, a charge of fifty (\$.50) cents per 1/4 mile or fraction thereof, route measurement, will be made for the circuit required to establish the connection. Route measurement is to be interpreted to mean the total length of all open wire circuits, and cable pairs measured separately where more than one cable pair or open wire circuit is required.
3. Where poles or other structures are required and such poles do not carry other circuits of the Telephone Company, such poles or structures will be provided by or at the expense of the subscriber.
4. May be located on the premises of another customer and restricted to answering incoming calls only provided the other has his own separate service at the same location.
5. Business off premises stations may be provided at a residence location of the same customer where residence main station service is also provided.
6. Residence off premises stations may be provided at a business location of the same customer where business main station service is also provided.

7. Mileage charges will be based upon the route measurement. Route measurement will be made for the circuit required to establish the connection, and is to be interpreted to mean the total length of all open wire circuits, and cable pairs measured separately where more than one cable pair or open wire circuit is required.

C. Rates

	Monthly Rate
1. Off Premises Station Mileage per 1/4 mile or Fraction thereof route measurement	\$.50
2. Each extension	\$1.50

S4.6 DIRECT INWARD DIALING (DID) SERVICE

A. GENERAL

DID service permits calls incoming to a PBX or other CPE from the network to reach a specific station line number without the assistance of an attendant. DID service is provided subject to the availability of facilities and may be furnished from the central office which regularly serves the area in which the customer is located or from a foreign central office equipped to provide DID service subject to the appropriate intra/interexchange rates.

Rates are in addition to the rates shown elsewhere in this Price List and Company Tariffs for the services and equipment with which this offering is associated. The Service includes central office switching equipment necessary for indialing from the network directly to station lines associated with customer premises switching equipment. The service must be provided on all trunks in a group arranged for inward service. Each trunk group shall be considered a separate service. Grouping service will not be provided between separate trunk groups.

Facilities and operational characteristics of interface signals between the Company-provided connecting arrangements and the customer-provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service.

PRICE LIST

d/b/a Camellia Communications

Section 4
First Revised Sheet 11

S.4 MISCELLANEOUS SERVICE ARRANGEMENTS

S4.6 DIRECT INWARD DIALING (DID) SERVICE (Cont'd)

A. GENERAL (Cont'd)

One primary directory listing will be furnished without charge for each separate trunk group. Additional listings can be obtained as specified in Section 27 of this Price List.

The customer shall be responsible for providing interception of calls to vacant and non-working assigned DID numbers by means of attendant intercept or recorded announcement service.

DID numbers are provided in blocks consisting of a minimum of 20 consecutive numbers which may be assigned to station lines or reserved for future use at rates specified herein. The Company does not guarantee to provide a number block consecutive to any other number block. The Company will be responsible for interception and administration of reserved numbers.

B. RATES

1. Monthly Charges

	Monthly Rates
Each Block 20 numbers	\$5.00
Each DID trunk termination in Central office	
1 to 20 trunks	\$40.00
21 to 40 trunks	\$30.00
40 and above	\$25.00

2. Non-Recurring Charges

The Nonrecurring Charge applies to the first group of DID numbers assigned to station lines per occasion. These rates and charges are applicable in addition to the rates and charge for the provision of PBX trunks and the associated equipment and services.

	Non-Recurring Rate
Group of 20 working or reserved DID numbers, each	\$480.00
DID Trunk Termination in central office, each	\$5.00

S4. MISCELLANEOUS SERVICE ARRANGEMENTS

S4.7 SEASONAL AND VACATION SERVICE

A. GENERAL

Seasonal and Vacation Service is basic local exchange service temporarily suspended. This service is provided to customers in all the Company's exchanges whose requirements for telephone service are less than that which might normally be provided in any 12 month period.

B. CONDITIONS

Seasonal and Vacation Service will be furnished at the Company's discretion under the following conditions:

1. Service is available to all classes and grades of exchange service where the usage is of a seasonal nature.
2. At least one month's full rental shall be paid for service prior to establishment of Seasonal or Vacation Service.
3. Charges for a total of six months may be billed prior to the suspension of service, or monthly, at the option of the Company.
4. During the period when the customer is billed at the reduced rate, no changes will be provided by the Company.
5. The reduced rate applies only to basic local exchange service. All other services such as mileage or any other supplemental services will be billed at the full rate during the suspended period.

C. RATES

1. The monthly rate will be based upon 50% of the regular rate for the basic local exchange service only. Service may be temporarily suspended for a minimum of 60 days and a maximum of 270 days.
2. Regular service charges will apply for the subsequent reconnection of service; no charges will be applied to the suspension of service.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS

S4.8 CUSTOM LOCAL AREA SIGNALING SERVICES (CLASS)

A. GENERAL

Custom local area signaling service is a group of central office call management features offered in addition to basic telephone service.

B. DEFINITIONS

1. **Auto Recall** This feature enables a customer to place a call to the telephone number associated with the most recent call received whether or not the call was answered or the number is known. The customer can dial a code to request that the network place the call. If the called line is not busy, the call is placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up and a queuing process begins. For the next thirty minutes both calling and called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone the call will automatically be placed.
2. **Automatic Call Back** Automatic call back, when activated, automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up and a queuing process begins. For the next thirty minutes both the calling and the called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone, the call will automatically be placed.

PRICE LIST

Hayneville Fiber Transport, Inc.
d/b/a Camellia Communications

Section 4
First Revised Sheet 14

S4. MISCELLANEOUS SERVICE ARRANGEMENTS

S4.8 CUSTOM LOCAL AREA SIGNALING SERVICES (CLASS) (Cont'd)

B. DEFINITIONS (Cont'd)

3. Distinctive Ringing Distinctive ringing provides a distinctive ringing pattern to the subscribing customer for up to four specific telephone numbers.

The customer creates a screening list of up to four telephone numbers through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern (short, long, short). Calls from telephone numbers not included on the screening list will produce a normal ring. If the customer subscribes to Call Waiting (see Section 7.2 of this Price List) and a call is received from a telephone number on the Call Selector screening list while the line is in use, the Call Waiting tone will also be distinctive. When a telephone number on the Distinctive Ringing screening list also appears on the Selective Call Forwarding list, the Selective Call Forwarding will take precedence. Likewise, when the same number is shown on the Selective Call Acceptance list, the call will be blocked. A customer's line will not produce a distinctive alert if the calling line is not referenced to and originated by the main telephone number or an identified telephone number that represents all the lines in a collection of lines, such as multiline hunt groups.

4. Selective Call Forwarding Selective call forwarding allows the customer to transfer selected calls to another telephone number. A screening list of up to ten numbers is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded to the Call Forwarding telephone number only if the calling number can be obtained and is found to match a number on the screening list.

If the customer also subscribes to Selective Call Rejection and the same telephone number is entered on both screening lists, the Selective Call Acceptance feature must be deactivated to allow the call to forward. This feature will not work if the calling line is not referenced to and originated by the main telephone number, or an identified telephone number that represents all the lines in a collection of lines such as multiline hunt groups.

PRICE LIST

Hayneville Fiber Transport, Inc.
d/b/a Camellia Communications

Section 4
First Revised Sheet 15

S4. MISCELLANEOUS SERVICE ARRANGEMENTS

S4.8 CUSTOM LOCAL AREA SIGNALING SERVICES (CLASS) (Cont'd)

B. DEFINITIONS (Cont'd)

5. Selective Call Rejection This feature provides the customer the ability to prevent incoming calls from up to ten different telephone numbers. A screening list is created by the customer either by adding the last number associated with the line or by pre-selecting the telephone numbers to be blocked. When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he has been attempting to call does not wish to receive his call at this time. If the customer also subscribes to Selective Call Forwarding and/or Distinctive Ringing and the same telephone numbers appear on those screening lists, Selective Call Rejection will take precedence. This feature will not work if the incoming call is from a telephone number in a multiline hunt group unless the telephone number is the main telephone number in the hunt group or is telephone number identified.

6. Customer Originated Trace Customer originated trace enables the customer to initiate an automatic trace of the last call received.

Upon activation by the customer, the network automatically sends a message to the Telephone Company indicating the calling number, the time the trace was activated, and in some locations, the time this feature would be required to contact the appropriate law enforcement official. Only calls from within the Custom Local Area signaling service equipped offices are traceable using Customer Originated Trace. This feature will not work if the incoming call is from a telephone number in a multiline hunt group, unless the telephone number is the main telephone number in the hunt group, or is telephone number identified. In some locations, if the customer makes or receives another call after hanging up from the annoying call, prior to activating the trace, customer originated Trace will not record the correct number.

PRICE LIST

Hayneville Fiber Transport, Inc.
d/b/a Camellia Communications

Section 4
First Revised Sheet 16

S4. MISCELLANEOUS SERVICE ARRANGEMENTS

S4.8 CUSTOM LOCAL AREA SIGNALING SERVICES (CLASS) (Cont'd)

B. DEFINITIONS (Cont'd)

7. Selective Call Acceptance Selective call acceptance allows the customer to select up to ten customer telephone numbers from which calls are to be received. All other calls are routed to a recorded announcement that informs the caller that the customer does not wish to receive his call. Selective Call Acceptance takes precedence over Selective Call Rejection, Selective Call Forwarding, and Distinctive Ringing. If a calling number is not on the customer's list, no further screening feature is required.
8. Calling Name and Number Delivery This feature is a terminating class feature which allows a subscriber to receive the calling party's name and number, in addition to the date and time of the call, during the first silent interval of the power ringing cycle before the call is answered. This feature is offered on a flat rate subscription basis.
9. Calling Name and Number Delivery Deluxe. This feature is a terminating CLASS feature which allows a subscriber to receive the calling party's name and number, in addition to the date and time of the call, during the first silent interval of the power ringing cycle before the call is answered or in conjunction with the feature call waiting. Any customer subscribing to this service will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of this equipment to perform satisfactorily with the network features described herein. If the incoming call is from a caller who subscribes to Ringmaster, the telephone number transmitted will always be the main number rather than the ringmaster number. If the incoming call is from a caller served by a PBX, only the main number of the PBX is transmitted and available for display. If the incoming call originates from a multiline hunt group, the telephone number transmitted will always be the main number of the hunt group. This feature is offered on a flat rate subscription basis.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS

S4.8 CUSTOM LOCAL AREA SIGNALING SERVICES (CLASS) (Cont'd)

B. DEFINITIONS (Cont'd)

10. Calling Number Delivery Blocking This feature enables certain customers as described in Section 7.12 C.1.c to prevent the transmission of their Directory Number on all outgoing calls placed M from the customer's line. Calling Number Delivery Blocking Per Line is in operation on a continuous basis. If the preassigned access code for Calling Number Delivery Blocking Per line is dialed on a line that is provisioned with Calling Number Delivery - Per Line, the Directory Number may be delivered.

11. Calling Number Delivery Blocking Per Call This feature allows a customer to temporarily prevent the transmission of that customer's directory number (DN: and thus control its availability to the called party. The transmission of the Directory Number can be temporarily prevented on an as needed basis by dialing a preassigned access code prior to making a call. This action must be repeated each time a call is made to prevent the transmission of the Directory Number. Screening List Editing This is a set of support procedures that serves as the basis (prerequisite) for the following features: Distinctive Ringing/Call Waiting Indication, Selective Call Acceptance, Selective Call Forwarding or Selective Call Rejection.

It provides voice-guided instruction which allows subscribers to activate and deactivate features, obtain feature status information, and create or modify lists of directory numbers. Each list is associated with a particular feature to identify those telephone calls which should receive special treatment.

12. Screening List Editing This is a set of support procedures that serves as the basis (prerequisite) for the following features: Distinctive Ringing/Call Waiting Indication, Selective Call Acceptance, Selective Call Forwarding, Selective Call Rejection

It provides voice- guided instruction which allows subscribers to activate and deactivate features, obtain feature status information, and create or modify lists of directory numbers. Each list is associated with a particular feature to identify those telephone calls which should receive special treatment.

S4. MISCELLANEOUS SERVICE ARRANGEMENTS

S4.8 CUSTOM LOCAL AREA SIGNALING SERVICES (CLASS) (Cont'd)

C. CONDITIONS

1. The following limitations apply:
 - a. Custom Local Area Signaling Service is provided subject to the availability of facilities. Additionally, the features described will only operate on calls originating and terminating within Custom Local Area Signaling Service equipped offices. Also, feature screening lists can only contain telephone numbers of subscribers served out of Custom Local Area Signaling Service equipped offices.
 - b. The service is available to all single party customer who have touch-tone service.
 - c. The service will not work on an originating basis with Company provided Public and Semi-Public Telephone service, toll terminals or trunks.
 - d. Appropriate service order charges apply except during Company selected period of special promotion. These charges will apply when the Company is required to restore functions that are disabled by the customer, *i.e.*, reestablished screening lists.
2. All limitations listed in Section 7.12 C.1 are applicable to the Calling Number Delivery feature in addition to the following:
 - a. Calling Number Delivery is available to single exchange line residence and business customers. Calling Number Delivery is not available for lines equipped with Rotary (Grouping) arrangements.
 - b. The Company will deliver all numbers, subject to technical limitations, including telephone numbers associated with Non-published Listing service as described in Section 27 of this Price List.

S4.9 VOICE MAIL SYSTEM

A. General

Voice Mail is an answering service that excludes the use of any equipment at the residence or business. This service answers the call with a personal greeting created by the customer. Messages can be retrieved at any time, from anywhere, using only a touchtone telephone and your four digit personal identification number. When the calling party receives a busy signal at the called parties residence or business they are automatically forward to the customer's answering service. The system is completely automated and guides the caller through the easy and convenient steps of the voice mail system. The business enhanced voice mail will replace the current business voice mail system. It will add several features such as: web-based access, voice mail trees and the capability to forwarding voice mail messages to pagers, cell phones or email.

S5. INTRALATA PRIVATE LINE SERVICE

S5.1 UNDERTAKING OF THE COMPANY

A. Provision of Facilities

The Company undertakes to maintain and repair the facilities which it furnishes. The Customer or authorized user may not rearrange, disconnect, remove or attempt to repair any equipment installed by the Company except upon the written consent of the Company.

B. Work Performed Outside Regular Working Hours

The rates and charges specified in this Price List contemplate that work will be performed during regular working hours and that work once begun will not be interrupted by the customer. If, at the request of the customer, work is performed outside of regular working hours, either to meet his convenience or because the time allowed is insufficient to permit completion during regular hours or if the customer interrupts work which has begun, the customer may be required to pay any additional costs incurred.

C. Scope

1. IntraLATA Private Line Service is the furnishing of the Company facilities for communication between specified locations 24 hours daily seven days per week. Facilities may be those of the company only or those of the Company and connecting companies.
2. The Company does not undertake to transmit messages.
3. IntraLATA Private Line Services not specified in this Price List will be provided on an Individual Case Basis (ICB).
4. IntraLATA Private Line Service is available to end user customers only. BellSouth, IXCs competitive local exchange carriers and other carriers must order under the Company's Special Access Tariff.
5. Provisions of Private Line Services referenced in this Section are subject to availability of Company facilities, equipment, and technical capabilities, and, as applicable any limitations and operating characteristics of equipment and technical capabilities.

S5.1 UNDERTAKING OF THE COMPANY (Cont'd)

D. Liability

1. The liability of the Company for damages arising out of mistakes, omissions, interruptions, preemptions, delays or errors or defects in transmissions occurring in the course of furnishing service and not caused by the negligence of the customers, or the Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision shall in no event exceed an amount equivalent to the proportionate charge to the customer or the period of service during which such mistake, omission, interruption, preemption, delay, or error or defects in transmission occurs.
2. The Company shall be indemnified and saved harmless by the customer against:
 - a. Claims for libel, slander and infringement of copyright arising from the material transmitted over the facilities;
 - b. Claims for infringement of patents arising from, combining with, or using in connection with, facilities furnished by the Company, apparatus and systems of the customer; and
 - c. All other claims arising out of any act or omission of the customer in connection with the facilities provided by the Company.
3. The Company is not liable for any act or omission of the other company or companies furnishing a portion of the service.
4. The Company does not guarantee or make any warranty with respect to equipment provided for use in an explosive atmosphere. The customer indemnifies and holds the Company harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, where suffered, made, instituted or asserted by the customer or by any other party or person, or any personal injury to or death of any person or persons, and for any loss, damage or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location, or use of said equipment so provided.

S5. INTRALATA PRIVATE LINE SERVICE

S5.1 UNDERTAKING OF THE COMPANY (Cont'd)

D. Liability

5. The Company may require each customer to sign an agreement for the furnishing of such equipment as a condition precedent to the furnishing of such equipment.
6. The company is not liable for any defacement of or damage to the premises of a customer resulting from the furnishing of channel facilities or the attachment of the instruments, apparatus and associated wiring furnished by the Company on such premises or by the installation or removal thereof, when such defacement or damage is not the result of negligence of the agents or employees of the Company.
7. The Company shall be under no liability for the quality or defects in voice recordings where Company combined transmitting and recording equipment is utilized in making such recordings.
8. Unauthorized Computer Intrusion

The Company's liability, if any, for its willful misconduct is not limited by this section of the Price List. With respect to any other claim or suit by a subscriber, common carrier, reseller, or any other party for damages caused by, or associated with, any unauthorized computer intrusion, including but not limited to the input of damaging information such as a virus, time bomb, any unauthorized access, interference, alteration, destruction, theft of, or tampering with, a Company computer, switch, data, database, software, information, network or other similar system, the Company's liability, if any, shall not exceed an amount equal to the proportionate charge by the Company for the service for the period during which the service provided by the Company was affected or so utilized.

D. Liability

9. Transmission of Data

The Company shall not be held liable for any damage, harm or loss of data caused by the subscriber using the Company's voice-grade telephone access lines and/or facilities for the transmission of data. The Company's liability shall be limited to errors or damages to the transmission of voice messages over these facilities, and the liability shall be limited to an amount equal to the proportionate amount of the Company's billing for the period of service during which the errors or damages occur.

10. Errors or Damages Caused by System Date Limitations

The Company's liability for errors or damage resulting from the inability of the Company's systems to process dates shall be limited to the amount equal to the proportionate amount of the Company's billing for the period of service during which the errors or damages occur.

11. Unauthorized Devices

The Company shall not be held liable or responsible for any damage or harm that may occur as the result of unauthorized devices or the failure of the Company to detect unauthorized devices on the subscriber's line.

E. Provision of Facilities

The Company or the Company and other carriers will provide all facilities necessary for private line service to the demarcation point at a customer premises, except that, the customer or authorized user may provide his own terminal equipment or communications systems for use with such service as specified in 1. through 3. following or as otherwise specified hereinafter.

S5.1 UNDERTAKING OF THE COMPANY (Cont'd)

E. Provision of Facilities (Cont'd)

1. Where the customer or authorized user provides his own communications system, or terminal equipment the customer or user shall provide all station apparatus and associated channels which are a part of the system and which are located on the same customer's premises as the system.
2. When a private line is used for data transmission which requires terminal equipment (data sets), such data sets may be provided by the customer or authorized user except that the Company shall furnish all data sets located in the Company's central offices. Where the customer or authorized user elects to provide his own data set(s) on a given private line, it shall be the responsibility of the customer or authorized user to ensure the continuing compatibility of such data set(s) with the facilities furnished by the Company.
3. When a private line is used for transmission purposes other than voice, it is contemplated that the customer or authorized user will provide the station equipment for such other purposes.

S5.2 DS1 SERVICE

A. General

1. DS1 service is furnished for Private Line IntraLATA communications by the Company.
2. DS1 service is a service for the transmission of digital signals only and using only digital transmission facilities.
3. DS1 service provides for the simultaneous two-way transmission of isochronous digital signals at DS1 speeds of 1.544 Mbps where facilities are available.
4. To insure satisfactory operation, the terminal equipment provided by the customer shall be compatible with the DS1/1.544 Mbps channel facility provided by the Company.

PRICE LIST

S5. INTRALATA PRIVATE LINE SERVICE

S5.2 DS1 SERVICE (Cont'd)

A. General (Cont'd)

5. Unless specified following, the regulations for DS1 service specified herein apply in addition to the regulations set forth in the General Rules and Regulations.
6. The rates specified for DS1 service following contemplate the provision of a digital quality facility over existing interoffice carrier equipment and/or exchange cable facilities compatible with this service. If such equipment, new facilities or changes to existing facilities are required for the provision of this service, a special construction charge based on the cost incurred to make the changes will apply in addition to the rates for DS1 service.

B. Description of Service

1. DS1 service is furnished for the simultaneous two-way transmission of serial, Bipolar Return-to-Zero, isochronous digital signals, except where intentional bipolar violations are introduced by Bipolar with 8 Zero Substitution (B8ZS) format, at a speed of DS1/1.544 Mbps between two-points located within a LATA.
2. DS1 service is available on a month-to-month basis or under variable rates based on lengths of 12 months, 24 months, or 36 months, under conditions specified in this Price List.
3. The Company does not represent its DS1 service as adapted for such connections, and shall not be responsible for the through transmission of signals or the quality of such transmission on such connections.
4. A Channel Service Unit (CSU) or appropriate Termination Equipment (TE) provided by the customer is required at a customer's or authorized user's premises to perform such functions as proper termination of service, amplification, signal shaping, and remote loop-back.

PRICE LIST

Hayneville Fiber Transport, Inc.
d/b/a Camellia Communications

Section 5
Original Sheet 6

S5. INTRALATA PRIVATE LINE SERVICE

S5.2 DS1 SERVICE (Cont'd)

B. Description of Service (Cont'd)

5. The design, maintenance, and operation of DS1 service contemplates communications originating and terminating as (1) a customer premises to customer premises channel via the Company's Serving Wire Center (SWC) and/or through remote SWC's; (2) a customer premises to the Serving Wire Center - and/or to remote SWC's - partial channel (link); or (3) a Central Office to Central Office (interoffice) partial channel (link); or (4) between SWC's of this Company and a central office of a connecting company within the LATA.

C. Definitions

Channel Service Unit - The term "Channel Service Unit" (CSU) denotes equipment provided by the Customer to terminate a digital facility on the customer's or user's premises.

Channelization – is an optional channel service package to activate voice and data facilities.

Digital Local Channel - The term "Digital Local Channel" denotes a path for DS1 service furnished from the demarcation point on the customer's premises to their Serving Wire Center ("SWC").

DS1 - This denotes a channel service expressed in its digitally encoded data bit rate in accordance with the North American hierarchy of digital signal levels. It has a 1.544 Mbps transmission data rate, and provides for the two-way simultaneous transmission of isochronous timed, Bipolar Return-to-Zero (BRTZ) bit stream format, except where intentional bipolar violations are introduced by Bipolar with 8 Zero Substitution (B8ZS) format. Unframed signal formats are not permitted or compatible with Company equipment.

Interoffice Channel - The term "Interoffice Channel" denotes a path (or paths) for digital transmission between Company SWC within the LATA, or between Company SWCs and other ILEC serving wire centers within the LATA. An interoffice channel may be furnished in such a manner as the Company may elect.

S5.2 DS1 SERVICE (Cont'd)

C. Definitions (Cont'd)

- Superframe Format ("SF") – Provision of DS1 without Clear Channel Capability.
- Extended Superframe Format ("EFT") – Provision of DS1 with Clear Channel Capability.

D. Application of Rates

1. Digital Local Channels furnished between a Serving Wire Center and the customer's premises will be charged at rates set forth for Digital Local Channels under Rates and Charges.
2. Interoffice Channels furnished between Central Offices will be charged at rates based on airline distance between the Central Offices.
3. DS1 service is available on a month-to-month basis or under variable rate periods with rates based on lengths of 12 months, 24 months, or 36 months
4. A Termination Liability Charge is applicable at the date of termination. The applicable charge is dependent on the contract period subscribed to and will be equal to the number of months remaining in the contract times the monthly rate provided under the contract.

E. Responsibility of the Company

1. The responsibility of the Company shall be limited to the furnishings and maintenance of DS1 service to that point on the customer's premises where provision is made for the connection of customer-provided equipment. If the customer requires a different location in the same building, it can be provided under the Premises Network Wiring Charge found in this Price List.

Original Sheet 8

S5. INTRALATA PRIVATE LINE SERVICE

S5.2 DS1 SERVICE (Cont'd)

E. Responsibility of the Company (Cont'd)

2. The Company shall not be responsible for installation, operation, or maintenance of any terminal equipment or communications systems provided by a customer. DS1 service is not represented as adapted for the use of such equipment or system. Where such equipment or system is connected to Company facilities the responsibility of the Company shall be limited to the furnishing of facilities suitable for DS1 service and to the maintenance and operation in a manner proper for such digital service. The company shall not be liable for:

- the through transmission of signals generated by such equipment or system, or for the quality of, or defects in, such transmission or
- the reception of signals by such equipment or systems, or
- the damage to terminal equipment or communications systems provided by a customer or authorized user due to testing.

3. The Company shall not be responsible to the customer if changes in any of the facilities, operations, or procedures of the Company utilized in the provision of DS1 service render any facilities or equipment provided by a customer obsolete, or require modification or alteration of such equipment or system or otherwise affects its use or performance.

4. The Company undertakes to maintain and repair the facilities which it furnishes. The customer may not rearrange, disconnect, remove, or attempt to repair any equipment installed by the Company without prior written consent of the Company.

F. Responsibility of the Customer

1. The customer is responsible for installing and testing his premises equipment or facilities to insure that when they are connected with DS1 service such equipment or facilities are operating properly.

S5.2 DS1 SERVICE (Cont'd)

F. Responsibility of the Customer (Cont'd)

2. The operating characteristics of the customer's premises equipment or facilities shall be such as not to interfere with any of the services offered by the Company. Such use is subject to the further provisions that the equipment provided by a customer does not: endanger the safety of Company employees or the public; damage, require change in or alteration of the equipment or other facilities of the company; interfere with the proper functioning of such equipment or facilities; impair the operation of the Company's facilities or otherwise injure the public in its use of the Company's services. Upon notice from the Company that the equipment provided by a customer is causing or is likely to cause such hazard or interference the customer shall take such steps as shall be necessary to remove or prevent such hazard or interference.
3. The customer's responsibility shall include cooperative testing with the Company as may be necessary. Where regeneration and/or equalization adjustments or changes may be required to compensate for rearrangements and/or changes in outside plant facilities, the customer will be responsible for all expenses incurred in changes to his premises equipment.
4. The customer shall be responsible for payment of a Trouble Determination Charge as set forth in this Price List for visits by the Company to the premises of the customer where the service difficulty or trouble report results from the use of equipment or facilities provided by the customer.

G. Rates and Charges (Cont'd)

3. Clear Channel Capability (CCC)

- a. Clear Channel Capability is furnished on a per DS1 service channel basis.
- b. Clear Channel Capability (CCC) is an arrangement that alters a DS1/1.5444 Mbps signal with unconstrained information bits, to meet pulse density requirements outlined in Technical Reference 73525. This will allow a customer to transport an all zero octet over a DS1 service channel providing an available combined maximum 1.536 Mbps data rate. This arrangement requires the customer signal at the channel interface to conform to Bipolar with 8 Zero Substitution (B8ZS) line code as described in Technical Reference 73525.
- c. CCC is provided on DS1 service channels between two customer designated premises, from a customer premises to their Serving wire Center or Node Central Office and/or to a remote Serving Wire Center or Node Central Office, and from a central office to a central office, and is subject to the availability of facilities. This optional feature may be ordered at the same time the DS1 service channel is ordered, or it may be ordered as an additional feature of an existing DS1 service channel.
- d. CCC is provided in an Extended Superframe Format. When CCC is ordered at time of DS1 installation, there is no charge for CCC. Charges apply when CCC is added via Extended Superframe Format or removed via Superframe Format.

Per DS1 service channel optioned as

		Monthly	Nonrecurring Charge	
		Rate	Initial	Subsequent
(a)	Superframe Format (SF)	\$-	\$-	\$600.00

4. Move Charge

- a. A move charge, per DS1 service channel, applies for each DS1 Local Channel moved to a new location in the same building. This move charge is equal to the DS1 Local Loop Channel Nonrecurring Charge, Service Change Charge - Inside Moves, plus Premises Visit Charges.
- b. A move charge, per DS1 service channel, applies for each DS1 service moved to a new location in the Company territory within the same state. This move charge is equal to the sum of all nonrecurring charges applicable to a new DS1 service channel installation at the new location.

5. Service Change Charges

- a. Service Establishment Charges are applicable, for each DS1 service channel ordered, for receiving and recording information and/or for taking action in connection with a customer's request, and processing the necessary data. These charges include engineering design, common centralized testing, and coordination.
- b. Service Change Charges are applicable for receiving and recording information and/or taking action in connection with a customer's Inside Move or transfer of service responsibility request, for processing the necessary data on an existing DS1 service channel. A Service Change Charge is applicable for each DS1 service channel associated with the customer request (in lieu of a Service Establishment Charge).
- c. Premises Visit Charges are applicable, per DS1 Local Channel, for the termination of a channel at a customer's premises or for inside moves. Only one Premises Visit Charge applies when more than one channel service of the same type is terminated or moved at the same premises at the same time.

S5.3 DIGITAL DATA SERVICES

- A. General: Digital Data Services are transmission services designed to transmit data in digital form from end to end over Digital facilities.
- B. Description of Services: Digital Data Services are capable of the simultaneous two-way transmission of digital signals at synchronous speeds of 2.4, 4.8, 9.6, 19.2, 56 or 64 Kbps between points within a LATA.
- C. Definitions

Digital Local Channel – denotes a path for services furnished from the serving wire center to the demarcation point on the customer’s premises.

Digital Interoffice Channel – denotes a path for services between the serving wire center and its primary node central office, or between node central offices, within a LATA. An interoffice channel may be furnished in such a manner as the Company may elect.

Multipoint Service – denotes a service which provides communications capability between more than 2 private line locations by means of bridging or hubbing arrangement.

Secondary Channel Capability – denotes the offering of a companion digital transmission capability over the same physical facility as the primary channel at a lower bit rate. Terminal equipment required to support secondary channel capability must be provided by the customer.

S5.3 DIGITAL DATA SERVICES (Cont'd)

D. Rates and Charges

1. Digital Local Channel is furnished between a Serving Wire Center and the customer's premises. The Digital Local Channel Charges apply per local Channel and include a Channel Termination at the Company's Central Office.

		Nonrecurring Charge				
		First	Add'l	Month to	12	24
Month		Month	Month	Months	Mo's	Mo's
a.	2.4 Kbps	\$414.00	\$271.00	\$65.00	\$58.75	\$56.50
b.	4.8 Kbps	\$414.00	\$271.00	\$65.00	\$58.75	\$56.50
c.	9.6 Kbps	\$414.00	\$271.00	\$65.00	\$58.75	\$56.50
d.	19.2 Kbps	\$414.00	\$271.00	\$65.00	\$58.75	\$56.50
e.	56.0 Kbps	\$459.00	\$311.00	\$105.00	\$93.00	\$86.00
f.	64.0 Kbps	\$499.00	\$351.00	\$105.00	\$93.00	\$86.00

2. A Digital Data Interoffice Channel is furnished between a serving wire center and the Central Office or between the Central Offices. A fixed rate and a rate per mile apply to each Digital Data Interoffice Channel provided.

a. Interoffice channel, each channel

(1)	Fixed Rates Applicable	Nonrecurring Charge	Month to Month	12 Months	24 Months
(a)	2.4, 4.8, 9.6, & 19.2 Kbps	\$67.00	\$22.00	\$19.50	\$19.00
(b)	56.0 & 64.0 Kbps	\$67.00	\$40.00	\$36.00	\$34.00
(2)	Each mile or fraction thereof				
(a)	2.4, 4.8, 9.6, & 19.2 Kbps	\$-	\$2.05	\$1.90	\$1.75
(b)	56.0 & 64.0 Kbps	\$-	\$4.10	\$3.80	\$3.50

S5. INTRALATA PRIVATE LINE SERVICE

S5.4 VOICE GRADE SERVICE

A. General

1. Voice Grade Service provides for voice and/or data communications on a two-point or multipoint basis for service 7 days per week, 24 hours per day for a minimum period of one month.
2. Channel Services provided under the provisions of this Price List are offered for IntraLATA Services only. Voice Grade Services consist of Local Channels, Interoffice Channels, and Optional Features and Functions.

B. Rate Categories

Following are the basic rate categories which apply to Voice Grade service.

1. Local Channels

A local Channel provides for a communications path between the demarcation point at a customer premises and the serving wire center of that premises. One local channel charge applies per channel termination.

2. Interoffice Channels

This rate category provides for the transmission facilities between serving wire centers associated with two customer premises, between serving wire centers associated with a customer premises and a Company hub, or between two Company hubs.

Interoffice mileage is portrayed as a flat rate and a rate per mile. For method of determining airline mileage, see the NECA Tariff.

d/b/a Camellia Communications

Section 5
Original Sheet 18

S5. INTRALATA PRIVATE LINE SERVICE

S5.4 VOICE GRADE SERVICE (Cont'd)

B. Rate Categories (Cont'd)

3. Optional Features and Functions

This rate category provides for features and functions which may be added to a service and to improve its quality or utility to meet specific communications requirements. These are not necessarily identifiable with specific equipment, but rather represent the end result in terms of the performance characteristics which may be obtained. This category includes a. and b. following.

a. Hub Functions

A hub is a Company designated wire center where bridging or multiplexing functions are performed *i.e.*, connecting three or more customer premises in a multipoint arrangements or channelizing analog or digital services requiring a lower capacity or bandwidth.

b. Provides for such things as signaling, conditioning, transfer arrangements, protection switching, etc.

C. Service Configurations

1. There are two types of service configurations which can be provided. These are described as follows:

a. Two-Point Service

A two-point service connects two customer premises either directly through a serving wire center(s) or through a Company hub where additional functions are performed.

b. Multipoint Service

(1) Multipoint service connects three or more customer premises through a Company hub.

PRICE LIST

Section 5
Original Sheet 19

S5. INTRALATA PRIVATE LINE SERVICE

S5.4 VOICE GRADE SERVICE (Cont'd)

C. Service Configurations

1. (Cont'd)

b. Multipoint Service (Cont'd)

- (2) There is no limitation on the number of mid-links available with multipoint service. However, when more than three mid-links are provided in tandem, the quality of the service may be degraded. A mid-link is a channel between hubs (*i.e.*, bridging locations).
- (3) Voice Grade Multipoint Channel services for data use have a limit of six two-wire facility type local channels or 20 four-wire facility type local channels when used with customer-provided station equipment.
- (4) Only certain types of service are available for multipoint applications.

D. Special Routing of IntraLATA Voice Grade Service

1. The Voice Grade services furnished in this Price List are provided over such routes as the Company may elect.
2. Special routing is involved where, in order to comply with requirements specified by the customer, the Company furnishes the private line service in a manner which includes one or both of the following conditions:
 - a. Where two or more private lines must be furnished over different physical routes.
 - b. Where a private line must be furnished on a route which avoids specified geographical locations.
3. When special routing of services is furnished a customer, the rates will be determined on an individual case basis.

E. Service Descriptions

1. Voice Grade Service provides for voice and/or data communications on a two-point or multipoint basis for service 7 days per week, 24 hours per day, for a minimum period of one month. These channels may also be furnished on a link (partial channel) basis when connected to services such as DS1. Channels which also provide tie line service will not be furnished to connect a flat rate system with a message rate system. The transmission characteristics and various types of services furnished are described in 2. and 3. following.

S5. INTRALATA PRIVATE LINE SERVICE

in the provision of analog data services. Multipoint
may be provided.

4. Telemetry/Alarm Bridging Service
 - a. Regulations
 - (1) This Price List section contains the regulations applicable for Telemetry/Alarm Bridging Service.
 - (2) Except as otherwise specified following, the regulations contained herein are in addition to the regulations found in other sections of this Price List.

S5. INTRALATA PRIVATE LINE SERVICE

S5.4 VOICE GRADE SERVICE (Cont'd)

E. Service Descriptions (Cont'd)

4. Telemetry/Alarm Bridging Service (Cont'd)
 - a. Regulations (Cont'd)
 - (3) Telemetry/Alarm Bridging Service requires the use of equipment as specified following and voice grade local channels.
 - (4) Terminal equipment provided by the customer to use with this service must meet specifications for such customer-provided equipment found in other sections of this Price List.
 - (5) No more than 128 remote stations may be connected to a master station over an individual Split Band Active Bridge.
 - (6) In Split Band Active Bridging arrangements, secondary bridges must be directly connected to the primary bridge via mid-link channels. Secondary bridges cannot be connected through other secondary bridges to allow additional layers of tandeming.

PRICE LIST

Hayneville Fiber Transport, Inc.
d/b/a Camellia Communications

Section 5
Original Sheet 23

- (7) Secondary bridges, utilized in Split Band, Active Bridging arrangements, reduce the two-wire remote station capacity of the primary bridge. The initial secondary bridge reduces the primary bridge capacity by twelve two-wire remote station connections. Each subsequent secondary bridge reduces the primary bridge capacity by four additional two-wire remote station connections. At the customer's option external bridging may be provided for connecting secondary bridges at the rate applicable following without reducing the two-wire capacity of the primary bridge.

4. Telemetry/Alarm Bridging Service (Cont'd)

a. Regulations (Cont'd)

- (8) Standard multipoint bridging charges as provided in other sections of this Price List are not applicable to this service except as provided in g. preceding.
- (9) Access over remote station channels is provided through a local channel and through the appropriate channel connection as contained following. Interconnection of remote stations located outside the serving wire center where the bridge to which they are to be connected is located will require interoffice channels at charges contained in this Price List.
- (10) Access over each four-wire mid-link channel for Split Band Active Bridging is through voice grade interoffice channels at charges contained in this Price List. Additionally, mid-link channel connections are required as described following.

b. Service Description

- (1) Telemetry/Alarm Bridging Service is a multi-station, voice frequency, private line service designed to provide connections between a master station and a number of remote stations simultaneously. Direct transmission between remote stations is not intended. This service is intended for application in multipoint, voice frequency, data or tone signaling arrangements with transmission at rates up to 400 baud.

b. Service Description (Cont'd)

(2) Telemetry/Alarm Bridging Service

Split Band, Active Bridging - A bridging arrangement providing for a four-wire (master station or mid-link channel) frequency split common port and multiple two-wire (remote station) ports intended for application in multipoint, voice frequency, data or tone signaling arrangements. Two-way (polling) communication between the master station and each remote station is intended.

F. Rate Regulations

1. Types of rates and charges

The two types of rates and charges are monthly rates and nonrecurring charges and are described as follows:

a. Monthly Rates

Monthly rates are recurring charges that apply each month or fraction thereof that a service is provided. For billing purposes, each month is considered to have 30 days.

PRICE LIST

Hayneville Fiber Transport, Inc.
d/b/a Camellia Communications

Section 5
Original Sheet 26

S5. INTRALATA PRIVATE LINE SERVICE

S5.4 VOICE GRADE SERVICE (Cont'd)

F. Rate Regulations (Cont'd)

1. Types of rates and charges (Cont'd)

b. Nonrecurring Charges

Nonrecurring Charges are one-time charges that apply for a specified work activity. The three types of nonrecurring charges that apply are installation of service, installation of features and functions and service arrangements.

(1) Installation of Service

Nonrecurring charges apply for each service terminated at the customer's premises. For the installation of local channels when more than one of the same type of service, between the same locations, for the same customer is ordered and installed at the same time, one at each location is billed at the First Service Installed rate and the others are billed at the Additional Service Installed rate.

The nonrecurring charges for the Installation of Services are set forth following as Nonrecurring Charges for the Local Channel and the Interoffice Channel rate elements.

(2) Nonrecurring charges apply for the installation of features and functions available with the various services. For some features and functions there is a lower charge if installed coincident with the service and a higher charge if installed subsequent to the service.

PRICE LIST

Section 5
Original Sheet 27

S5. INTRALATA PRIVATE LINE SERVICE

S5.4 VOICE GRADE SERVICE (Cont'd)

F. Rate Regulations (Cont'd)

1. Types of Rates and Charges (Cont'd)

c. Service Rearrangements

- (1) Service rearrangements are changes to existing (installed) services which do not result in either a change in the minimum period requirements or a change in the physical location of the point of termination at a customer premises. Changes, which result in the establishment of new minimum period of obligations, are treated as disconnects and starts. Changes in the physical location of the point of termination are treated as moves and are described and set forth in this Price List.

The charge to the customer for the service rearrangement is dependent on whether the change is administrative only in nature or involves actual physical change to the service.

Administrative changes will be made without charge(s) to the customer. Such changes require the continued provision and billing of the Private Line Service to the same entity (*i.e.*, customer remains responsible for all outstanding indebtedness for the service). Administrative changes are as follows:

- Change of customer name (*i.e.*, the customer of record does not change but rather the customer of record changes name),
- Change of customer or customer's premises address when the change of address is not a result of a physical relocation of equipment.
- Change in billing data (name, address or contact name or telephone number.

S5. INTRALATA PRIVATE LINE SERVICE

S5.4 VOICE GRADE SERVICE (Cont'd)

F. Rate Regulations (Cont'd)

1. Types of Rates and Charges (Cont'd)

c. Service Rearrangements (Cont'd)

(2) All other service rearrangements will be charged for as follows:

- If the change involves the addition of other customer designated premises to an existing multipoint service, the nonrecurring charge for the local channel rate element will apply. The charges will apply only for the location(s) that is being added.
- If the change involves the addition of an optional feature or function which has a separate nonrecurring charge, that nonrecurring charge will apply.
- If the change involves changing the type of signaling on a voice grade service the subsequent, nonrecurring charge will apply for the new type signaling. The charge will apply per service termination affected.
- For all other changes, including a change of the customer of record involving no physical changes to the service provided or the addition of optional features without separate nonrecurring charges, a charge equal to a local channel rate element nonrecurring charge will apply. Only one such charge will apply per service, per change.

F. Rate Regulations (Cont'd)

1. Types of Rates and Charges (Cont'd)

c. Service Rearrangements (Cont'd)

(3) Moves

(a) A move involves a change in the physical location of one of the following:

(i) The point of interface at the customer premises.

(ii) The customer's premises.

(b) The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.

(i) Moves Within the Same Building

When the move is to a new location within the same building, the charge for the move will be an amount equal to one-half the nonrecurring (*i.e.*, installation) charge for the affected service termination at the customer's premises. There will be no change in the minimum period requirements. If a move is made at the same time a service rearrangement is made, the total charge will never exceed a full nonrecurring charge for the basic service.

1. Types of Rates and Charges (Cont'd)

c. Service Rearrangements (Cont'd)

(3) Moves (Cont'd)

(ii) Move to a Different Building

Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply. New minimum period requirements will be established at the new location. The customer will also remain responsible for satisfying all outstanding minimum period charges for the discontinued service.

G. Rates and Charges

1. Digital Local Channels – denotes a path furnished from the service wire center to the demarcation point on the customer’s premises.

a. Per point digital local channel

	Monthly Rate	First	Nonrecurring Charge Additional
Voice			
Two or Four Wire			
1 to 20	\$55.00	\$315.00	\$130.00
21 to 40	\$40.00		
40 and above	\$25.00

G. Rates and Charges (Cont'd)

2. InterOffice Channels

When station locations of a voice grade service are located in different wire center serving areas, interoffice channel charges apply. Charges are based on the direct airline distance measured between the serving wire centers.

A fixed and per mile charge applies as set forth following:

	Fixed Monthly Charge Per Mile	Monthly Charge Per Channel	Nonrecurring Charge
Voice Grade Service	\$35.00	\$2.25	\$96.00

3. Optional Features and Functions

a. Bridging

Bridging charges are applicable where more than two Local Channels, or one or more Local Channels and more than one Interoffice Channel, or more than one Local Channel and one Interoffice Channel are bridged or hubbed at the same wire center.

(1) Voice Grade Bridges

(a) Voice Bridging - Per Port

	Monthly Rate	Nonrecurring Charge
-Two-Wire	\$15.00	\$32.00
-Four-Wire	\$16.00	\$32.00

3. Optional Features and Functions (Cont'd)

b. Signaling Arrangements

Signaling arrangements are provided at the customer's option to arrange channels for suitable signaling. Signaling is required on all off-premises extension channels and tie line channels associated with PBX (or similar) systems.

Per local channel		Monthly	Nonrecurring Charge	
		Rate	Initial	Subsequent
(1)	Ringdown-Manual	\$11.00	\$34.00	\$180.00
(2)	Ringdown-Automatic	\$10.00	\$15.00	\$57.00
(3)	E & M Type	\$10.00	\$44.00	\$165.00
(4)	Type A (0-199 ohms)	\$6.00	\$40.00	\$115.00
(5)	Type B (200-299 ohms)	\$6.00	\$37.00	\$115.00
(6)	Type C (900 or more ohms)	\$3.00	\$12.00	\$115.00

c. Conditioning (Voice Grade Services)

- (1) Conditioning provides more specific transmission characteristics for data services. There are two types of C-conditioning and one type of D-conditioning, each with different technical specifications. C-type conditioning controls attenuation distortion and envelope delay distortion. D-type conditioning controls the signal to C-notched noise ratio and intermodulation distortion.

Conditioning is charged on a per Local Channel Basis for two-point and multipoint service. For two-point services the parameters apply to each service. For multipoint services the parameters apply to any path between any two service points.

S6. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

S6.1 LINE EXTENSION CHARGES

A. General

1. Construction or installation charges are nonrecurring charges made under certain conditions as hereinafter set forth and are in addition to applicable charges for the class of service furnished, mileage charges and other charges that may be applicable.
2. Construction charges are payable at the time the application for service is signed or when the amount is rendered, as the Company, at its option, may require.
3. The word "Cost", wherever used in this section, is to be interpreted to mean the cost of labor and materials, and include charges for supervision and other overhead expense associated with the construction or installation.
4. When attachments are made to poles of other companies, in lieu of providing new pole line construction for which the subscriber would regularly be charged construction charges under the provision of this section, the attachment rental charges to the Company for such attachments may be borne in whole or in part by the subscriber as the particular circumstances may warrant.
5. Any poles, conduit, cable or other plant provided at the expense of the customer, on either a public highway or on private property shall not be used by the customer for any purpose other than service furnished by the Company for the support of cable, wire or other apparatus of the Company, except upon approval of the Company.
6. In all cases of construction on public highway or on private property to serve customers in general, ownership of the poles, conduit, and other plant must be vested either in the Company or some other company with which the Company has joint use arrangement. All plant is maintained and replaced at the expense of the Company.

S6.1 LINE EXTENSION CHARGES (Cont'd)

A. General (Cont'd)

7. Except as provided under "Temporary Service," where the applicant is located outside the base rate area and the construction of outside plant is required to provide the facilities to serve one or more applicants, the applicant or applicants may be required to bear that portion of the cost of such construction in excess of an amount equal to five years exchange service charges for the service subscribed for. Neither station installations, including drop wire, protector, inside wiring, telephone set or any plant within the base rate area shall be considered as construction cost.
8. When a special type of construction is desired by a subscriber or when the individual requirements of a particular situation makes the construction unusually expensive, the subscriber is required to bear the excess cost.

B. Private Right-Of-Way

When the applicant is so located that it is necessary to use private right-of-way to furnish service and the Company is unable to obtain the required right-of-way without cost, the applicant may be required to pay the cost incurred in securing, clearing and retaining such right-of-way.

C. Exceptions to Construction Charges

Except as provided under "Temporary Service", no construction charge is made for the provision of new pole lines or wire on public highways within the Base Rate Area. Except as provided under "Temporary Service", where the applicant is located outside the Base Rate Area and the construction of outside plant is required to provide facilities to serve one or more applicants, the applicant or applicants may be required to bear the cost of such construction. Neither station installations, including drop wire, protector, or any plant within the Base Rate Area shall be considered as construction costs.

S6. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

S6.2 TEMPORARY SERVICE

When construction is required for temporary service and there is no immediate prospect of reusing the plant provided, the subscriber is required to bear the total cost of such construction and installation and the cost of removal, if removed, provided, however, that the salvage value of any plant removed, excluding the telephone set, shall be deducted from the total cost to be paid by the subscriber.

S6.3 MOVES OR CHANGES OF EXISTING CONSTRUCTION

When the Company shall move or change existing construction or equipment for which no specific charge is quoted in this Price List, the person at whose request the move or change is made may be required to bear the cost of such change.

S6.4 MISCELLANEOUS SERVICES

A. General

When a special type of construction is desired by a subscriber or when the individual requirements of a particular situation make the construction unusually expensive, the subscriber is required to bear the excess cost of such construction.

B. Charges to the Customer

1. In all cases, normal service charges (Service Connection Charge) apply.
2. Except as indicated in this schedule, no other charges will be made when Buried Distribution Systems or Buried Drops are utilized to provide service.
3. When a customer desires a special type of installation, or to be served by a type of construction not normal to the area in which he is located, or which is not normally provided by the Telephone Company, the customer may be required to pay the time and material cost of such installation or construction.

S7. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S7.1 GENERAL REGULATIONS

A. General

This section addresses the responsibilities and liabilities of the customer and company where customer provided terminal equipment and communication systems interconnect with the regulated services of the Telephone Company. Customer provided refers to any equipment purchased or leased by the customer from the Telephone Company or from any other provider of such equipment.

B. Responsibility of the Customer

Customer-provided communications equipment may be used with the facilities furnished by the Telephone Company for telecommunications services as provided in this Price List or in the Company's General Subscriber Services Tariff. In all such cases the customer-provided communications equipment will be constructed, maintained and operated as to work satisfactorily with the facilities of the Telephone Company. Where telecommunications service is available under this Price List or under the Company's tariff for use in connection with customer-provided communications systems, the operating characteristics of such equipment or system shall be such as not to interfere with any of the services offered by the Telephone Company. Such is subject to the further provisions that the customer-provided equipment or system does not endanger the safety of Telephone Company employees or the public; damage, require change in or alteration of, the equipment or other facilities of the Telephone Company; interfere with the proper functioning of such equipment or facilities; or impair the operation of the Telephone Company's service. Upon notice from the Telephone Company that the customer-provided equipment or system is causing or is likely to cause such hazard or interference, the customer shall make such change as shall be necessary to remove or prevent such hazard or interference. The customer indemnifies and saves the Telephone Company harmless against claims for infringement of patents arising from combining such equipment or system with, or using it in connection with, facilities of the Telephone Company; and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Telephone Company.

Original Sheet 2

S7. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S7.1 GENERAL REGULATIONS (Cont'd)

C. Responsibility of the Telephone Company

The Company shall not be responsible for the installation, operation or maintenance of any customer-provided terminal equipment or communications system. Telecommunications or private line service is not represented as adapted to the use of customer-provided equipment or systems and where such are connected to the Company facilities the responsibility of the Company shall be limited to the furnishing of facilities suitable for telecommunications service and to the maintenance and operation of such facilities in a manner proper for such telecommunications service. Subject to this responsibility, the Company shall not be responsible for (1) the through transmission of signals generated by the customer-provided equipment or systems or for the quality of, or defects in, such transmission, or (2) the reception of signals by customer-provided equipment or systems, or address signaling where such signaling is performed by customer-provided signaling equipment.

The Telephone Company will, at a subscriber's request, provide information concerning interface parameters, including the number of ringers which may be connected to a particular telephone line needed to permit customer-provided terminal equipment to operate in a manner compatible with telecommunications or private line service.

The Telephone Company may make changes in its telecommunications or private line services, equipment, operations or procedures, where such action is not inconsistent with Part 68 of the Federal Communications Commission's Rules and Regulations. If such changes can be reasonably expected to require modification or alteration of customer provided terminal equipment or communications systems or materially affect its performance, the Company will make a reasonable effort to notify the customer in advance, to allow the customer an opportunity to maintain uninterrupted service.

The Telephone Company will not be responsible for any loss or damage, nor for any impairment or failure of the service, arising from or in connection with the use of facilities of customers and not caused solely by the negligence of the Telephone Company.

S7. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S7.1 GENERAL REGULATIONS

D. Violation of Regulations

Where any customer-provided equipment or system or communication system provided to a customer is used with telecommunications service in violation of any of the provisions in this Price List, the Telephone Company will take such immediate action as necessary for the protection of its services, and will promptly notify the customer of the violation. The customer shall discontinue such use of the equipment or system or correct the violation and shall confirm in writing to the Company within 10 days, following the receipt of written notice from the Company, that such use has ceased or that the violation has been corrected. Failure of the customer to discontinue such use or to correct the violation and to give the required written confirmation to the Telephone Company within the time stated above shall result in termination of the customer's service until such time as the customer complies with the provisions of this Price List. The right of the Telephone Company to terminate service as provided above, includes the right to suspend the service or to disconnect such customer-provided equipment or communications system.

E. Hazardous or Inaccessible Locations

Customer-provided equipment which serve a location which the Telephone Company considers impracticable to service because of hazard or inaccessibility may be connected with telecommunications service by means of connecting equipment furnished by the Telephone Company.

F. Provisions of Channels and Equipment

When the customer elects to provide his own communications system, it is contemplated that the customer shall provide all station apparatus and associated channels which are a part of the system and which are located on the same customer's premises as the system.

G. Recording, Reproducing, and Automatic Answering and Recording Equipment

1. Recording of Two-way Telephone Conversations

Telecommunications and private line services are not represented as adapted to the recording of two-way telephone conversations. Customer-provided voice recording equipment may be connected with telecommunications and private line services, in accordance with the provisions in this Price List, subject to the following conditions:

When recording equipment is in use and is a direct electrical connection with services of the Telephone Company, a recorder tone that is repeated at intervals of approximately fifteen seconds is required except that the recorder tone described is not required:

- a. When the equipment will be used by public fire and police departments exclusively for the receipt of intrastate fire and police calls, and intended at all times for such purpose.
- b. For Federal Communications Commission licensed broadcast stations for the purpose of recording two-way telephone conversations for broadcast over the air so long as those activities are consistent with the applicable broadcast regulations.
- c. When such equipment is used by the United States Department of Defense at command centers for emergency communications transmitted over the Defense Department's private line system when connected to the telecommunications network.

G. Recording, Reproducing, and Automatic Answering and Recording Equipment (Cont'd)

1. Recording of Two-way Telephone Conversations (Cont'd)

- d. For the United States Secret Service of the Treasury Department to record Telephone conversations which endanger the safety and security of the President of the United States, and members of his immediate family. Customer-provided voice recording equipment shall be so arranged that it can be physically connected to and disconnected from Telephone Company facilities and switched on and off.

S7.2 CONNECTIONS OF REGISTERED TERMINAL EQUIPMENT AND SYSTEMS

A. Customer-provided registered terminal equipment, registered protective circuitry, and registered communications systems may be directly connected at the customer's premises to the telecommunications network, subject to Part 68 of the Federal Communication Commission's Rules and Regulations:

1. A customer-provided registered PBX or key system may be connected directly to the public switched network or behind a Company provided Centrex system provided that the customer-provided equipment and the associated customer-provided premises wiring are in compliance with Section 68.214 and 68.215 of the FCC's Rules and Regulations.
2. The customer shall notify the Company of each line to which registered equipment is to be connected and shall notify the Company when such registered equipment is permanently disconnected. The customer shall provide the Company the registration number and ringer equivalence number for the registered equipment. The customer is also responsible for specification of the appropriate protective connecting arrangement when other than the standard jack is required. (See FCC Part 68, Section 68.106, Notification to Telephone Company.)

S7.2 CONNECTIONS OF REGISTERED TERMINAL EQUIPMENT AND SYSTEMS (Cont'd)

A. (Cont'd)

3. The Company is not obligated to provide system and/or terminal equipment or station wiring beyond the point of connection (network interface) with customer-provided systems and/or terminal equipment.

B. Premises Wiring Associated with Registered or Grandfathered Communications Systems

Premises Wiring is wiring which connects separately-housed equipment entities or system components to one another, or wiring which connects and equipment entity or system component With the telephone network interface, located at the customer's premises and not within an equipment housing.

1. Fully-protected Premises Wiring is premises wiring which is:
 - a. No greater than 25 feet in length (measured linearly between the point where it leaves equipment or connector housings) and registered as a component of and supplied to the user with the registered terminal equipment or protective circuitry with which it is to be used.
 - b. A cord which complies with (1) preceding and which is extended once by a registered extension cord. Extension cords may not be used as a substitute for wiring which for safety reasons should be affixed to or embedded in a building's structure.
 - c. Wiring located in an equipment room with restricted access, provided that this wiring remains exposed for inspection and is not concealed or embedded in the building's structure, and that it conforms to Part 68 of the Federal Communications Commission's Rules and Regulations.

1. (Cont'd)

d. Electrically behind registered equipment, system components or protective circuitry which assure that electrical contact between the wiring and commercial power wiring or earth ground will not result in hazardous voltages or excessive longitudinal imbalance at the telephone network interface.

2. Protected Premises Wiring Requiring

Acceptance Testing for Imbalance is premise wiring which is electrically behind registered equipment, system components or circuitry, which assure that electrical contact between the wiring and commercial power wiring will not result in hazardous voltages at the telephone network interface.

3. Unprotected Premises Wiring is all other premise wiring. Customers who intend to connect premise wiring other than Fully-Protected Premises Wiring to the telephone network shall give advance notice to the Company in accordance with the procedures specified in Part 68, Section 68.106(c) of the Federal Communication Commission's Rules and Regulations.

S7.3 CONNECTIONS OF GRANDFATHERED TERMINAL EQUIPMENT AND GRANDFATHERED COMMUNICATIONS SYSTEMS

A. Direct Connections and Connections through Connecting Arrangements Provided by the Company

1. If the initial rule-compliance connection was made prior to January 1, 1980, grandfathered Terminal Equipment and Grandfathered Communication Systems may remain directly connected and be moved and reconnected to the telecommunications network for the life of the equipment without registration. The equipment or system may be modified only in accordance with Part 68 of the Federal Communication Commission's Rules and Regulations, subject to the following:
 - a. The customer shall notify the Company when grandfathered terminal equipment or a communication system is to be connected. Notification should include a description of the equipment, manufacturer's name, model number and type of equipment and state its previous connection, which qualifies it for continued connection. The customer shall also notify the Company when such communications equipment and systems are to be permanently disconnected.
 - b. All connections are made through a network interface agreeable to the Company and the customer.
 - c. All such connections shall comply with all the criteria contained in Subpart D of Part 68 of the Federal Communication Commission's Rules and Regulations both prior to and after the application of each of the mechanical and electrical stresses specified in that section.

S7.4 ACOUSTIC OR INDUCTIVE CONNECTIONS

A. General

Customer-provided voice or data terminal equipment and customer-provided communications systems may be acoustically or inductively connected at the customer's premises to the telecommunications network provided the connection is made externally to the network control signaling unit when the unit is Telephone Company-provided. The customer provided communications equipment must comply with all the criteria contained in Subpart D of Part 68 of the Federal Communications Commission's Rules and Regulations both prior to and after the application of each of the mechanical and electrical stresses specified in that section.

S7.5 CONNECTION OF CUSTOMER-PROVIDED COMMUNICATIONS SYSTEMS NOT SUBJECT TO PART 68 OF THE FCC RULES AND REGULATIONS

A. Customer-provided communications systems not subject to Part 68 of the Federal Communications Commission's Rules and Regulations may be connected with telecommunications services in accordance with this Price List. These communications systems (including channels derived from such systems), not exceeding voice grade, may be connected at the customer's premises provided that:

1. Such telecommunications service or customer provided communications system is utilized for the origination or termination of communications at the customer's premises where the connection is made.
2. The connection shall be through a network control signaling unit and connecting arrangement furnished by the Company.
3. The connection shall be made through switching equipment provided either by the customer or by the Company.

S7. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S7.5 CONNECTION OF CUSTOMER-PROVIDED COMMUNICATIONS SYSTEMS NOT SUBJECT TO PART 68 OF THE FCC RULES AND REGULATIONS (Cont'd)

A. (Cont'd)

4. The provisions relating to minimum protection criteria set forth in Subpart D of Part 68 of the Federal Communications Commission's Rules and Regulations both prior to and after the application of each of the mechanical and electrical stresses specified in that section. As related to minimum protection criteria and when applied to the connection of customer-provided communications systems, the term "Customer's premises" shall include any premises on which the customer-provided communications system is terminated. Where a telecommunications service is used in the provision of a composite data service for others and connection of such service is made to a communications system provided by a customer and the connection is made through customer-provided data switching equipment, the provisions of 1. and 3. above do not apply.

S7.6 CONNECTIONS OF CUSTOMER-PROVIDED TERMINAL EQUIPMENT SPECIFICALLY EXCLUDED FROM THE FCC REGISTRATION PROGRAM

Customer provided terminal equipment may be connected at the customer's premises to party line or semipublic coin service of the company in accordance with the following:

The connection of customer-provided terminal equipment to services specifically excluded from the Federal Communications Commission's Registration programs shall be through a protective connecting arrangement which must be furnished by the Company. The connection of customer- provided communications equipment must comply with all the criteria contained in Subpart D of Part 68 of the Federal Communications Commission's Rules and Regulations both prior to and after the application of each of the mechanical and electrical stresses specified in that section.

S7.7 CUSTOMER PREMISES INSIDE WIRE

A. General Regulations

1. Customer premises inside wire and standard jacks associated with residence and business individual line basic local exchange services, as defined elsewhere in this Price List, may be provided by either the Company or the customer.
2. Customer premises inside wire is defined as that wire, including connectors, blocks and jacks, within a customer's premises that extends between the termination of the Exchange Access Line and those standard jack locations within the customer's premises to which terminal equipment can be connected for access to the Network Access Line.
3. Customer premises inside wire provided by the customer must be installed in accordance with the technical standards and installation guidelines furnished to the Commission by the Company and must comply with the National Electric Safety Code and applicable local codes.
4. Customer premises inside wire provided by the customer may be connected to residence and business individual line basic local exchange service furnished by the Company at a specified network interface.
5. The network interface for the connection of customer premises inside wire consists of a standard modular jack or appropriate device and is provided as part of the network access line. This will be installed inside or outside the customer's premises at a location determined by the Company which is accessible to the customer. The normal location will be in close proximity to the protector or entrance facility, whenever practicable.
6. The Company is not obligated to connect telephone instruments and standard modular jacks to customer-provided inside wire.
7. Maintenance of customer owned premises inside wire may be performed by either the Company or the customer.

S7. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S7.7 CUSTOMER PREMISES INSIDE WIRE

B. Responsibility of the Customer

1. When the customer provides the inside wire and standard jacks, the installation must be in accordance with the technical standards furnished to the Commission by the Company.
2. In the event the customer maintains or attempts to maintain inside wire, the customer assumes the risk of loss of service, damage to property, or death to or injury of the customer or the customer's agent. The customer will hold the Company harmless from any and all liability claims, or other damage suits arising out of the customer's wire maintenance activity.

C. Responsibility of the Company

The Company will make the technical standards and installation guidelines for customer provision of inside wire available to customers at the Business office or other designated locations.

D. Violation of Regulations

1. Where customer-provided inside wire is a violation of Section 2, the Company will properly notify the customer of the violation and will take such immediate action as is necessary for the protection of the telecommunications network and Company employees.
2. The customer shall discontinue use of the customer-provided inside wire or correct the violation and notify the Company in writing that the violation has been corrected within 20 days after receipt of such notice.
3. Failure of the customer to discontinue such use or to correct the violation will result in the suspension of the customer's service until such time as the customer complies with the provision of this Price List.

S8. EMERGENCY SERVICE

S8.1 ENHANCED UNIVERSAL EMERGENCY SERVICE NUMBER – E911

A. General

1. Enhanced Universal Emergency Number Service, also referred to as Enhanced 911 service or E911 is a telephone exchange communications service whereby a Public Safety Answering Point (PSAP) designated by the customer may receive telephone calls dialed to the telephone number 911.
2. Enhanced 911 Service is offered subject to availability of jointly owned facilities provided by Hayneville Fiber Transport, Inc. D/B/A Camellia Communications (HFT) with BellSouth Telecommunications or CenturyTel. Jointly owned facilities are necessary because the company serving boundaries and political subdivision boundaries may not coincide and because the company serving boundaries and because HFT does not provide the equipment necessary to translate and receive Automatic Location Identification.
3. The E911 customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police, fire or other emergency services within the telephone central office areas arranged for 911 calling.

B. Service Features

Enhanced 911 is available to HFT's Local Network Area in the form of Automatic Number Identification and Selective Routing (ANI/SR). HFT will provide its exchange public the ability to access their Enhanced 911 Service Area by Selective Routing. HFT will also provide Automatic Location Identification Data Base Maintenance. AN1 will be routed to BellSouth Telecommunications or CenturyTel for forwarding to the subscribing customer's predetermined Public Safety Answering Point (PSAP).

S8. EMERGENCY SERVICE

S8.1 ENHANCED UNIVERSAL EMERGENCY SERVICE NUMBER – E911 (Cont'd)

C. Rules and Regulations

1. This service is limited to the use of central office telephone number 911 as the Universal Emergency Telephone Number. Only one E911 service will be provided within any government agency's locality.
2. The 911 emergency telephone number is not intended as a total replacement for the telephone service of the various public safety agencies which participate in the use of this number.
3. The service is furnished to the customer only for the purpose of receiving reports of emergencies by the public.
4. E911 Service, provided under the tariff of other carriers, is provided solely for the benefit of the customer operating a PSAP. The provision of Selective Routing, Automatic Number Identification and Location Identification Data Base Maintenance by HFT shall not be interpreted, Construed, or regarded, either expressly or implied by, as being for the benefit of or creating any HFT obligation toward third person or legal entity other than the subscribing customer.
5. HFT does not undertake to answer and forward E911 calls, but furnishes the use of its facilities which, together with facilities of other carriers enables the subscribing customer's personnel to respond to such calls on the customer's premises.
6. Temporary suspension of service is not provided for any part of the E911 Service.

S8. EMERGENCY SERVICE

S8.1 ENHANCED UNIVERSAL EMERGENCY SERVICE NUMBER – E911 (Cont'd)

C. Rules and Regulations (Cont'd)

7. The customer agrees to release, indemnify and hold harmless HFT for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence condition, occasion or use of E911 Service features and the equipment associated therewith, or by any services furnished by HFT in connection therewith, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing 911 Service hereunder, and which arise out of the negligence or other wrongful act of the HFT, the customer, its user, agencies or municipalities, or the employees or agents of any one of them.
8. Applications for E911 Service must be executed in writing by each customer. If application for service is made by an agent, HFT must be provided written satisfactory proof of appointment of the agent by the customer. At least one local law enforcement agency must be included among the participating agencies in any 911 offering.
9. HFT's liability for any loss or damage arising from errors, interruptions, defects, failures, or malfunctions of this service of any part thereof whether caused by the negligence of HFT or otherwise shall not exceed the greater of \$50.00 or an amount equivalent of the pro rata charges for the service affected during the period of time that the service was fully or partially inoperative. These limited damages shall be in addition to any credit, which may be given for an out of service condition.
10. The telephone number, name and address of the subscriber may be disclosed in connection with E911 service, whether such service is provided by the Company or any other person. The subscriber waives any privacy interest in his telephone number, name and address in connection with E911 service.

(Cont'd)**

C. Rules and Regulations (Cont'd)

11. Rates and Charges

- a. Calling party is not charged for calls placed to the 911 number.
- b. Rates and charges are priced in regards to main and equivalent main stations, rounded upwards to the next nearest 1,000. This count is based upon the maximum number of the stated main stations in service during the most current twelve month period at the time service is established. This count will be adjusted annually to update customer billing with the applicable twelve month period being the twelve months ending with the calendar year.

Rate per 1000 main stations serviced

	NONRECURRING CHARGE	MONTHLY RATE
Automatic Number Identifications, Selective Routing, and Automatic Location Identification Database Maintenance	\$2,000	\$165.00
Local Facility		\$160.00

D. Definitions

Automatic Number Identifications (ANI) is a feature which automatically forwards the telephone number of the calling E911 party to facilities of Bellsouth Telecommunications or CenturyTel for processing in accordance with its E911 tariff. Selective Routing (SR) is a feature which provides the capability to selectively forward an E911 calling party to jointly provide specific trunk group(s).

Automatic Location Identification (ALI) is a feature by which the name (business accounts only) and the primary address associated with the calling party's telephone number (identified by ANI) is forwarded to the PSAP.

S9. INTERNET SERVICE

S9.1 Digital Subscriber Line Access Services

Digital Subscriber Line Access Services provide transmission services over local exchange service copper facilities that can be used for simultaneous voice and data communications. Service is provided, where available, between customer's designated premises and designated Telephone Company Serving Wire Centers.

S9.1.1 General

A. Asymmetric Digital Subscriber Line (ADSL) Access Service enables data traffic generated by a customer provided modem to be transported to a DSL Access Service Connection Point using the Telephone Company's local exchange service copper facilities. A DSL Access Service Connection Point is an interconnection point designated by the Telephone Company that aggregates data traffic from and to Telephone Company ADSL-equipped Serving Wire Centers (SWCs). The DSL Access Service Connection Point may be located within the operating territory of the Telephone Company for connections to Special Access Services, Frame Relay Access Service or Asynchronous Transfer Mode Cell Relay Access Service (ATM-CRS) or, in the operating territory of another telephone company for connections to special access or frame relay access services, provided both telephone companies agree to such an arrangement.

1. When the DSL Access Service Connection Point is located within the Telephone Company's operating territory, the customer's ADSL Access Service must be connected to a single telecommunications service providers (TSP's) customer designated premises using either the Telephone Company's Special Access Services, Frame Relay Access Service or ATM-CRS.

When the DSL Access Service Connection Point is located in the operating territory of another telephone company, the customer's ADSL Access Service must be connected to a single TSPs Customer designated premises using either equivalent frame relay access service provided by the distant telephone company, or a combination of DSL Extended Transport provided by the Telephone Company and equivalent special access service provided by the distant telephone company. ADSL Access Service is available as two service options, *i.e.*, ADSL Voice-Data and ADSL Data-Only.

First Revised Sheet 2

S9. INTERNET SERVICE

S9.1 Digital Subscriber Line Access Services (Cont'd)

S9.1.1 General (Cont'd)

A. (Cont'd)

2. The ADSL Voice-Data option provides transmission of data signals at peak data transmission speeds of 512 kbps upstream and 1.544 Mbps downstream using the Telephone Company's existing local exchange service line. This option may be used for simultaneous voice and data communications.
3. The ADSL Data-Only option provides transmission of data signals at peak transmission speeds of 512 kbps upstream and 1.544 Mbps downstream using the Telephone Company's existing local exchange copper facilities. This option does not provide the ability to transmit voice communications.
4. An additional enhanced Voice-Data option for business customers is available that provides transmission speed of 512 kbps upstream and 3 Mbps downstream using the Telephone Company's Existing local exchange service line.

- B. Symmetrical Digital Subscriber Line (SDSL) Service provides for transmission of digital data over the copper wires of the telephone network where the bandwidth in the downstream direction, from the network to the subscriber, is identical to the bandwidth in the upstream direction, from the subscriber to the network.

S9.1.2 Limitations

ADSL Access Service is available as two service options. Unless otherwise specified in this Price List, ADSL Access Service is at a maximum upstream speed of 512 kbps (*i.e.*, from the customer's equipment up to the DSL Access Service Connection Point) and a maximum downstream speed of 1.544 Mbps (*i.e.*, from the DSL Access Service Connection Point down to the customer's equipment). These peak speeds are not guaranteed by the Telephone Company due to factors that may affect the actual speeds delivered, including the ADSL Access Service customer's distance from the Telephone Company Serving Wire Center, condition of the existing copper facilities, and any capacity limitations in the TSP's network design.

PRICE LIST

Section 9
First Revised Sheet 3

S9. INTERNET SERVICE

S9.1 Digital Subscriber Line Access Services (Cont'd)

S9.1.2 Limitations (Cont'd)

The Telephone Company does not provide customer premises equipment (CPE) in conjunction with the ADSL Access Service offering. ADSL Access Service may not be used in conjunction with multi-point Special Access Service configurations. ADSL Access Service will be furnished where suitable facilities exist as determined by the Telephone Company. The Telephone Company will identify its ADSL-equipped Serving Wire Centers, DSL Access Service Connection Point Serving Wire Centers, and, if applicable, DSL Transport Hub Serving Wire Centers in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. Tariff F.C.C. No. 4.

ADSL Access Service will be provided over existing Telephone Company local exchange service facilities. When the customer orders the ADSL Voice-Data option, the rates and regulations for ADSL Access Service are in addition to any rates and regulations that apply for the associated local exchange service line provided under the terms and conditions in this Price List. The Telephone Company will automatically disconnect the ADSL Access Service Voice-Data option when the associated local exchange service line is disconnected for any reason.

Rates and regulations for Special Access Services, Frame Relay Access Service and Asynchronous Transfer Mode Cell Relay Access Service provided under this Price List will apply for the access service(s) provided between the TSP's customer designated premises and the DSL Access Service Connection Point.

S9.1.3 Undertaking of the Telephone Company

- A. The Telephone Company will provide ADSL Access Service at rates and charges as set forth in this Price List.
- B. The Telephone Company will determine if the associated local exchange service line or copper facilities are suitable for use with the ADSL Access Service option ordered by the customer. Service will not be provided on lines that the Telephone Company determines are not suitable for ADSL Access Service or on lines that produce interference with other services provided by the Telephone Company.
- C. The Telephone Company, after determining if the facilities are suitable for ADSL Access Service, will notify the customer if any additional CPE is necessary to support ADSL Access Service.

S9. INTERNET SERVICE

S9.1 Digital Subscriber Line Access Services (Cont'd)

S9.1.3 Undertaking of the Telephone Company (Cont'd)

- D. The Telephone Company will provision and maintain ADSL Access Service from the DSL Access Service Connection Point to the Point of Termination at the ADSL Access Service customer's premises, except as provided for in other sections of this Price List.
- E. The Telephone Company will notify the ADSL Access Service customer's TSP when DSL Extended Transport.

S9.1.4 Obligations of the Customer

- A. In addition to the regulations described in other sections of this Price List, the following provisions apply to ADSL Access Service:
- B. The customer is responsible for providing the Telephone Company with the necessary information to provision ADSL Access Service (*e.g.*, customer name, telephone number and premises address; billing name and address when different from the customer name and premise address; its internet Protocol (IP) address; and the contact name and telephone number of the TSP with which the customer's ADSL Access Service will interconnect).
- C. The customer is responsible for providing and maintaining all required customer provided equipment (CPE) , which is compatible with ADSL Access Service and complies with the standards specified in Technical Reference ANSI.
- D. Where required, the ADSL Access Service customer's TSP will order DSL Extended Transport from each Telephone Company designated DSL Transport Hub to its associated DSL Access Service Connection Point as described.

S9.1.5 Rate Regulations

This section contains the regulations governing the rates and charges that apply for ADSL Access Service. Regulations governing the rates and charges for the ADSL Access Service are as follows, and Asynchronous Transfer Mode Cell Relay Access Service provided under this Price List, used in conjunction with ADSL Access Service, are as specified herein.

Section 9
First Revised Sheet 5

S9. INTERNET SERVICE

S9.1 Digital Subscriber Line Access Services (Cont'd)

S9.1.5 Rate Regulations (Cont'd)

A. Minimum Period

The minimum period for which ADSL Access Service is provided to a customer and for which charges are applicable is one month.

B. Moves

A move involves a change in the physical location of one of the following:

The Point of Termination at the ADSL Access Service customer designated premises.

The ADSL Access Service customer designated premises.

The provisions for moves of ADSL Access Service are the same as those described in this Price List elsewhere proceeding, except that an Access Order Charge will not apply to move orders for the ADSL Access Service Voice-Data option.

C. Temporary Suspension of Service

When the associated local exchange service line over which the ADSL Voice-Data option is provided is temporarily suspended, the ADSL Access Service and one-half of the ADSL Line Charge monthly rate will be temporarily suspended for the time period that the associated local exchange service is suspended.

D. Rates

1. Static IP

A static Internet Protocol (IP) address is an identifier that helps one computer find another one in the great Internet network. The computer identifies its address to the computer that stores a website or form. The address was created during the connecting session to the Internet. The Internet Service Provider assigns the IP address dynamically when your DSL connection is made.

Section 10
First Revised Sheet 1

S10. CENTREX SERVICE & INTEGRATED SERVICES DIGITAL NETWORK

S10.1 CENTREX II

A. General Information

1. Centrex is a Central Office based business communications service which provides capabilities similar to those offered on a Private Branch Exchange, but without requiring switching equipment on the customer's premises.
2. Centrex integrates all of a specific business customer's lines into a single telecommunications system (&a Centrex Group) by providing the business customer with the ability to communicate between its premises stations and to receive and access local and toll network calls on a direct dial basis. Centrex service may be provisioned with or without the need for an attendant console.
3. All Centrex lines will be equipped with standard features as set forth herein. Additional optional features may also be selected and generally result in additional charges as described herein.

B. Conditions

1. A Centrex customer must have a minimum of two Centrex station lines. Each customer specific Centrex service will be known as a Centrex Group or Business Customer Group; and in instances where a Centrex Group has a large number of Centrex stations, sub-groups may be applicable to the customer specific Centrex Group.
2. The minimum charge period for services provided under this Centrex offering shall be for one month.
3. Centrex is offered subject to the availability of outside plant and/or Central Office facilities.
4. One directory listing is provided without charge for each Centrex Group, not each Centrex Station. Directory listings are subject to regulations specified in Section 27 of this Price List. If additional directory listings are required, these shall be provided under the terms and conditions described in Section 27 of this Price List.

First Revised Sheet 2

S10. CENTREX SERVICE & INTEGRATED SERVICES DIGITAL NETWORK

S10.1 CENTREX II

B. Conditions (Cont'd)

5. The customer may choose to pay for a Centrex service on a month-to-month basis or under a Term Pricing Plan. A month-to-month customer may, at any time, convert to a Term Pricing Plan by executing a Term Pricing Plan agreement and paying the applicable. Term Pricing Plan rate currently in effect.
6. With exception to instances where the Telephone Company may choose to increase or decrease rates, the monthly rate for customers choosing a Term Pricing Plan is guaranteed against rate changes during the selected Term Pricing period.
7. Subsequent station line additions/deletions to an original Term Pricing Plan are described as follows:
 - a. Subsequent additions will be rated under a new Term Pricing Plan or added to an existing Term Pricing Plan, based upon the remaining period of the Term Pricing Plan. If the line addition causes the customer's total Centrex station line count to exceed the threshold of the station line count previously ordered, all Centrex station lines will be billed at the rate for larger line count.
 - b. Subsequent deletions, resulting in reductions equal to or exceeding twenty percent (20%) of the initial quantity under a Term Pricing Plan, will be subject to a Termination Liability Charge and treated as specified in paragraph 8 below. If the reduction causes the total number of Centrex station lines to fall into a different line size group, all remaining Centrex station lines will be billed at rates for the smaller line size group.
8. Termination Liability Charge shall be treated as follows:

If the service is canceled by the customer after installation of the service, but prior to the completion of the term Pricing Plan period, the customer shall be obligated to pay a Termination Liability Charge. The Termination Liability Charge is calculated on each station line being canceled by multiplying the monthly rate by the remaining months in the Term Pricing Plan times fifty percent.

Section 10
First Revised Sheet 3

S10. CENTREX SERVICE & INTEGRATED SERVICES DIGITAL NETWORK

S10.1 CENTREX II

B. Conditions (Cont'd)

8. (Cont'd)

- a. A customer who reduces the quantity of Centrex station lines under a Term Pricing Plan has the following options for the duration of the Term Pricing Plan period.

- (1) Continue to pay an amount equal to the monthly rate for the number of Centrex station lines that are disconnected under the applicable Term Pricing Plan, or
- (2) Pay termination charges as described in 8. (a) above on the number of Centrex station lines disconnected.

9. Customers who subscribe to Centrex for more than 100 station lines may, at the Telephone Company's discretion, be offered customer specific pricing on an individual case basis. The rate will be offered in writing to the customer for acceptance. An individual service agreement will specify the length of the service period and the applicable rates. With the exception of the customer specific rates, all other rates, charges and regulations specified herein shall continue to apply.

10. In instances where ISDN is used in conjunction with Centrex services, the following shall prevail:

- a. ISDN lines may be used in the total Centrex line count (example: a 2B+D ISDN counts as two (2) Centrex lines). The corresponding Network Access Registers and the Interstate End User Common Access Line Charge shall be provisioned as set forth in paragraphs 18 and 19 below.
- b. With exception to Centrex features rates, Centrex rates shall not be substituted for ISDN rates. Applicable ISDN rates are described in Section 15 of this Price List.

PRICE LIST

Section 10
First Revised Sheet 4

S10. CENTREX SERVICE & INTEGRATED SERVICES DIGITAL NETWORK

S10.1 CENTREX II

B. Conditions (Cont'd)

11. All station lines in a customer specific Centrex group must have the same billing arrangement. This will be accommodated under the company's single bill, multiple telephone number billing option. If the customer requires customer specific billing features which are not within the company's current multiple telephone number billing capabilities, changes to the company's billing format shall be only at the company's discretion and any cost associated therewith shall be borne by the requested customer.
12. When used with Call Forwarding or Call Transfer, the Centrex customer is responsible for the payment of the applicable toll charge for each billable call connected over the Public Network.
13. The Centrex lines for a Centrex Group may terminate at multiple locations; however, all Centrex lines in the same group must be served by the same Central Office.
14. Centrex does not include terminal equipment on the customer's premises. Terminal equipment may be covered under a separate service agreement, or may or may not be provided by the customer. In instances where terminal equipment is not covered under a separate service agreement with the Telephone Company, the customer shall be responsible for all expense associated therewith.
15. Where quantities of switching equipment or other facilities in excess of those needed to meet the standard service objectives of the Telephone Company are requested by the subscriber, such additional facilities will be furnished at regular rates and charges for the individual items as set forth in other Sections of this Price List.
16. Unless specifically covered under a separate agreement, all operation and maintenance at the customer's premises is performed at the expense of the customer and must conform with the operating practices and procedures of the Telephone Company to maintain a proper standard of service.

Section 10
First Revised Sheet 5

S10. CENTREX SERVICE & INTEGRATED SERVICES DIGITAL NETWORK

S10.1 CENTREX II

B. Conditions (Cont'd)

- 17. Unless specifically exempted, Centrex service shall be subject to all general regulations applicable to the provision of service by the Telephone Company as stated in the General Subscriber Services Tariff. In this Section and the provision of the General Subscriber Services Tariff, then the provision of this Section shall prevail.
- 18. Unless specifically covered under a separate agreement, the number of Network Access Registers for a customer specific Centrex group shall be provisioned to correspond to the following number of Centrex station lines:

Number of Centrex Station Lines	Equivalent Number of Network Access Registers
2	2
3	3
4 to 6	4
7 to 10	6
11 to 16	7
17 to 21	8
22 to 28	9
29 to 36	10
37 to 45	11
46 to 55	12
Each Additional 18 lines	1

In instances where additional Network Access Registers are required by a Centrex customer, the monthly rates, installation and basic termination charges shall be based on the cost involved to meet the individual requirements of each case.

- 19. Each Centrex station line shall pay a Multi-Line Interstate End User Common Access Line Charge (CALC). A corresponding credit will be given to equal those Multi-Line CALCs that exceed the number of Network Access Registers (NARS).

S10. CENTREX SERVICE & INTEGRATED SERVICES DIGITAL NETWORK

S10.1 CENTREX II

B. Conditions (Cont'd)

20. When Technically feasible, Advanced Custom Calling Features (a/k/a StarPlus or Class Features) may be purchased to enhance a Centrex station line. The rates, conditions and limitations for Advanced Custom Calling Features are described in Section 7 of this Price List. The applicable feature rates shall be assessed on each Centrex station line equipped with said feature.
21. In instances where a Service Order is only for adding or changing an existing calling feature, the applicable "Service Order Charges" shall be the nonrecurring rate as described in Section 6 of this Price List.
 - a. Attendant Features:
 - (1) Attendant Access to Code Calling (10-64) allows a Centrex attendant to page a called party by a code system -- Code Calling. Afterwards, the called party may respond from any Centrex station by dialing an answering code.
 - (2) Attendant Call Transfer (10-230) - With this feature, the attendant may flash and dial a code prior to dialing the third leg of the three-way call and inhibit the automatic connection of all the parties. This allows private consultation between the attendant and the third leg of the call.
 - (3) Attendant Camp-on (non-data-link console) (10-64) provides the attendant with the ability to transfer incoming calls to a busy Centrex station. When the attendant uses the camp-on feature in transferring a call to a busy station, the busy station receives a tone (indication of camp-on) each time the attendant attempts a completion. The call being transferred is held and receives audible ringing while waiting for the busy station to answer. The called Centrex station user can answer the call by either flashing or hanging up and being rung back.

B. Conditions (Cont'd)

21. (Cont'd)

a. Attendant Features (Cont'd)

- (4) Attendant Console Designation (non-data-link console) (10-64) permits a business customer group to designate a particular station within a group as an attendant station. This attendant station may assist the other stations in the business customer group in making calls and may be designated to receive calls to the listed directory number for the entire business customer group. Stations within the group may access the attendant by dialing the digit "0".
- (5) Attendant Conference (10-64) allows an attendant to connect a maximum of five parties (not including the attendant) to a conference facility in order that they may converse. The parties are added one at a time to a common connection through the attendant. A 6-port conference circuit is a requirement for this feature.
- (6) Attendant Control of Facilities (10-65) restricts access to tie lines, FX lines, and WATS lines by operating a key or dialing a code. When activated, calls to these restricted facilities will be routed to the attendant, a Directory Number, given reorder or given an announcement.
- (7) Attendant Direct Station Selection (10-65) - An attendant with a nondata-link 50b electric console can place calls to stations in the business customer group by simply depressing a non-locking push-button key associated with the desired station line. A separate busy lamp field option provides a visual indication of the busy or idle condition of the stations through a lamp associated with each push-button key.

B. Conditions (Cont'd)

21. (Cont'd)

a. Attendant Features (Cont'd)

- (8) Attendant ID On Incoming Calls (10-65) allows an attendant at a 50b console position to identify visually the type of service or trunk group associated with a call directed to the attendant.
- (9) Call Park (10-345) - See Call Park below.
- (10) Call Waiting Lamps For Attendant (1 0-65) permits the customer to specify the level of delayed attendant traffic at which the "Call Waiting" lamp on the attendant consoles will be turned on.
- (11) Call Transfer Attendant (1 0-61) - A Centrex station user connected to an incoming call can call the attendant to transfer the call to another line. The Centrex station user may accomplish this by either flashing the switch hook or flashing the switch hook and dialing "0".
- (12) Code Calling - See Code Calling below.
- (13) Manual Line Service - See Manual Line Service below.
- (14) Dial Through Attendant (10-65) allows a station user to complete the dialing after the attendant selects the facility. The station user may complete the dialing on calls other than station-to-station calls.

S10.1 CENTREX II

B. Conditions (Cont'd)

21. (Cont'd)

a. Attendant Features (Cont'd)

- (15) Multiposition Hunt (1 0-65) provides the ability to distribute calls over a group of console positions, each of which can handle several different types of calls (for example, dial "0", long distance). Each position has dedicated terminals for receiving the different types of incoming calls. This feature allows only one call at a time to ring on a console.
- (16) Night Service (1 0-65) routes calls which are normally directed to the attendant to preselected station lines within the customer group. This is useful when the regular consoles are not attended. Routing is available to one or more preselected numbers.
- (17) Power Failure Transfer (Attendant) (10-223) routes calls destined from the attendant to a preselected Directory number during a commercial power failure at the customer premises.
- (18) Toll Diversion to Attendant (1 0-59) - This feature routes calls blocked in conjunction with restrictions to the attendant.

B. Conditions (Cont'd)

21. (Cont'd)

a. Attendant Features (Cont'd)

(19) Trunk Answer Any Station (10-59) permits an individual at any business group station to answer an incoming call to the listed Directory Number when the attendant is not on duty to answer the call. feature allows any of the business group stations to dial a code in order to be connected to the incoming call. In order to make individuals aware that a call has come in which needs to be answered, this feature is used in conjunction with night service and audible alarms or lights. For example, trunk answer any station is applicable in the situation where a night security guard must be alerted through an alarm or light that an incoming call has come into the attendant position while the attendant is not present. The guard may then answer the call from any business station.

(20) Trunk Group Busy Lamps (1 0-65) feature indicates on a private facility group basis when the facility group is entirely in use. The feature is applicable when private facilities are provided with access on dial-up basis. The switching system activates a light on the customer premises to indicate when all trunks are busy in a private facility group. There is one lamp for each private facility group.

b. Authorization Codes (10-60) allow the Centrex customer to define a set of dialing capabilities and to restrict the use of these capabilities to authorized personnel. Correspondingly, the use of Authorization Codes grants privileges associated with the Authorization Code rather than those associated with the Centrex station from which the call is being made.

21. (Cont'd)

- c. Business Group Line/Centrex Station Line (1 0-58) provides capabilities similar to an individual line, but is classed as a member of group of business lines belonging to a single customer.
- d. Business Group Line Centrex Station Line (10-58) provides capabilities similar to an individual line, but is classed as a member of a group of business lines belonging to a single customer.
- e. Call Forwarding Busy Line (1 0-53) provides for calls terminating to a Centrex station's busy line to be forwarded to another telephone number. The call forwarding -to number may reside within or outside the Centrex station group. The Telephone Company sets up the Call Forwarding telephone number as per the customer's initial application for service. Changes to the call forwarding telephone number set up are subject to the Telephone Company's non-recurring charge.
- f. Call Forwarding Distinctive Ringing (10-57) is a Call Forwarding Line option that allows Centrex station users to distinguish between forwarded and nonforwarded calls. The distinctive ringing pattern is two short rings. This option is assigned to the base or forwarding station, but is active (rings) on the forward-to station. This service is provisioned in conjunction with Distinctive Ringing Tone Originating/Terminating.

S10. CENTREX SERVICE & INTEGRATED SERVICES DIGITAL NETWORK

S10.1 CENTREX II

B. Conditions (Cont'd)

21. (Cont'd)

- k. Call Hold (1 0-56) allows a Centrex station user to put any in-progress call on hold by flashing the switch hook and then dialing a hold code. This frees the line to originate another call. Only one call per station line may be held at a time. The call on hold cannot be added to the other call, but the original connection can be retrieved by flashing the switch hook. If the station user disconnects when there is a party on hold, the user will automatically be rung back and upon answer be reconnected to the held party.
- l. Call Park (1 0-345) allows a call to be transferred to a Centrex station number and holds it there. Variations of Call Park and Call Park retrieval are described as follows:
 - m. Basic Call Park allows a station user, active on a call, to park a call against the user's own Directory Number such that the call may be retrieved and answered by any station within the same Centrex group.
 - (1) Directed Call Park allows station users to park a call against their own Directory Number, or direct the call to be parked against another Directory Number in the same Centrex group.
 - (2) Retrieve is the process of answering a call, which is parked against your own Directory Number.
 - n. Pick-up (10-57) allows a Centrex station within a given Call Pick-up group to answer a call ringing at another Centrex station with that group. This is accomplished by dialing a Call Pick-up access code while that Centrex station is ringing. If more than one Centrex station in the group is ringing, the one that has been ringing the longest is picked-up first.

First Revised Sheet 14

S10. CENTREX SERVICE & INTEGRATED SERVICES DIGITAL NETWORK

S10.1 CENTREX II

B. Conditions (Cont'd)

21. (Cont'd)

- o. Call Pick-up Directed (1 0-57) permits a user to dial a code and a station number and pick-up a call which has been answered or is ringing at another station. The rung telephone must permit directed pick-up. If a user tries to pick-up a station that has already been answered, a barge-in alert tone is provided, and a three-way call is established. Call Pick-up Directed differs from Call Pick-up in that there are no defined pickup groups.
 - (1) Answer Back allows a parked call to be answered back from any station within the Centrex group by the user going off-hook, receiving dial tone, and entering an answer back code or pressing an answer back feature button, receiving confirmation tone followed by recall dial tone, and then dialing the Directory Number the call is parked against.
 - (2) Ring Back After Time-out allows a call to be parked for only a specified period of time before being rung back at the parking station. Attendant Call Park allows Call Park to be assigned and be used with a Telephone Company specific Attendant console.
- p. Call Pick-up Directed Without Barge-In (10-57) is identical to Call Pick-up Directed except that a three-way call will not be established if the call had been answered by the called station. The party dialing the pick-up code will be routed to reorder.
- q. Call Transfer Internal Only (1 0-61) allows a Centrex station user to transfer calls to another Centrex station by flashing the switch hook and dialing the transfer-to number.
- r. Call Transfer Outside (10-52) allows a Centrex station user to transfer calls via the Public Network, to another Directory Number.

S10. CENTREX SERVICE & INTEGRATED SERVICES DIGITAL NETWORK

S10.1 CENTREX II

B. Conditions (Cont'd)

21. (Cont'd)

- s. Call Waiting (10-5 1) informs a Centrex station user already engaged in a phone call that a second call is waiting.
- t. Call Waiting-Dial (10-5 1) allows a Centrex station user to give call waiting treatment to another called Centrex station within the same group. This feature differs from Call Waiting Originating in that the dial call waiting station user must dial an activation code followed by the called number in order to give call waiting service to the terminating line for the duration of a call.
- u. Call Waiting Incoming Only (10-60) modifies the above Call Waiting feature so that the Centrex station line only receives call-waiting treatment on calls coming in from in from the Public Network.
- v. Call Waiting Originating (10-51) allows the customer to assign call waiting (terminating) service to a called party for the duration of a call. For example, when a b e with this feature calls a busy line in the same Centrex group, the caller hears an audible ring instead of a busy tone while the called party hears a call waiting tone. The called party could then flash to put the current call on hold and answer the calling party. If the called party hangs up, the station will ring and upon answer is connected to the calling party.
- w. Cancel Call Waiting (10-52) allows a Centrex station user to inhibit the application of call waiting tone for the duration of one call.
- x. Centrex Station is a specific customer provided equipment point at the Centrex customer's premises, which is connected by telephone lines to the Telephone Company's remote or central office switching equipment.

S10. CENTREX SERVICE & INTEGRATED SERVICES DIGITAL NETWORK

S10.1 CENTREX II

B. Conditions (Cont'd)

21. (Cont'd)

- y. Code Calling (10-72) allows attendants and station users to dial an access code and a 2- or 3-digit called party code to activate signaling devices (bell, gongs, horns, etc.) The called party can be connected to the calling party by dialing an answering code from any station within the customer group, which has appropriate access treatment.
- z. Common Control Switching Arrangement (CCSA) Access (10-63) is provisioned in conjunction with Network Access Registers and provides access and the ability to receive calls from the Public Network. Access to the network may be accomplished in two ways. First, access may be through the attendant when the access line is restricted to attendant access. Second, access may be by the station on a dial-up basis through the dial access to private facility feature. The station user dials the access (usually the single digit "8") and after an optional second dial tone, completes dialing per the CCSA numbering plan. Digits from calls coming in from the CCSA network are interpreted as station extensions of the business customer group according to the customer group-dialing plan.
- aa. Conference Calling (6-Way Controlled) (1 0-56) allows a Centrex station user or designated attendant to establish a conference call involving up to five other parties without attendant assistance.
- bb. Consultation Hold (a/k/a Add on - Consultation Hold - Incoming Only) (10-61) enables a Centrex station user, while on an established call, to place the original call on hold and consult privately with a third party. A switch hook flash by the called party removes the consultation hold and enables a three-way connection. This feature is restricted to incoming calls to a business customer group.

S10. CENTREX SERVICE & INTEGRATED SERVICES DIGITAL NETWORK

S10.1 CENTREX II

B. Conditions (Cont'd)

21. (Cont'd)

- cc. Critical Interdigital Timing For Dialing Plan (10-58) - This feature allows for the use of conflicting and/or variable length codes in a business customer group-dialing plan. For example, both 323 and 3236 can be assigned as station extensions in the same business customer group. If an ambiguity exists, a "##" can be used as an end-of-dialing code to truncate the interdigital timing.
- dd. Customer Access Treatment Code Restrictions (CAT) (10-59) allows the creation of subgroups within the business customer group to provide additional restriction or access functions.
- ee. Dial Access to Private Facilities (10-56) provides the ability to terminate private facilities at the central office, and have access to the facilities (for example, FX trunk) by dialing a unique access code per facility or facility group. Thus, the Centrex station user may go off-hook, dial the appropriate access code, obtain a second dial tone, and then dial the calls as though directly connected to the selected facility.
- ff. Direct Connect Service (10-47) allows a Centrex station user to automatically place a call to a preselected directory number by lifting the receiver off the switch hook. No dialing is required for the calling party to reach the specified destination. This feature does not affect termination to the line.
- gg. Direct Inward Dialing (10-72) allows Centrex station users to directly receive incoming calls without the assistance of an attendant. This provisioned in conjunction with Network Access Registers.

S10. CENTREX SERVICE & INTEGRATED SERVICES DIGITAL NETWORK

S10.1 CENTREX II

B. Conditions (Cont'd)

21. (Cont'd)

- hh. Direct Outward Dialing enables Centrex station users to call outside the Centrex group without the assistance of an attendant. This is provisioned in conjunction with Network Access Registers.
- ii. Directory Number is a seven-digit number associated with a Centrex station or with a telephone subscriber outside a Centrex system-the Public Network.
- jj. Distinctive Ringing Tone Originating/Terminating (10-57) provides unique ringing cycles or call waiting tones based upon the incoming call's origination (inside or outside a business group).
- kk. Dual Tone Multifrequency Dialing (DTMF) (10-50) permits a customer to send address signals to the switching system. After line seizure, the system alerts the customer by dial tone that it is ready to receive the dialed address information. Dialed digit interpretation is provided by the system in accordance with the call processing feature arrangements for the central office. Lines provided with the DTMF dialing feature are also permitted to use dial pulse dialing.
- ll. 800 Terminating Access (10-55) is provided in conjunction with Network Access Registers. The number of simultaneous 800 calls is limited to the number of Network Access Registers.
- mm. Group Numbering Plan (10-58) - Business group lines share a common group numbering plan. This numbering plan allows:
 - (1) Intercom dialing on a 1- to 7-digit basis
 - (2) Access to an attendant through the digit "0"
 - (3) Access to private facilities through a 1- to 7-digit code

S10.1 CENTREX II

B. Conditions (Cont'd)

21. (Cont'd)

mm. Group Numbering Plan (10-58) (Cont'd)

- (4) Redefinition of feature access codes from standard Plain Old Telephone Service codes
- (5) Overriding this special dialing plan by dialing an access code (the digit "9" usually) to gain access to the Public Network.

nn. Hunting (10-48) is a call completion feature that increases the likelihood of an incoming call being completed within a customer-defined group of lines. When the caller accesses the group, the hunting feature attempts to complete the call on a sequence of lines.

oo. Intercom Dialing (10-58) is provided in conjunction with group numbering plan features and allows Centrex station users to call other stations within their Centrex group by dialing an abbreviated 1- to 7-digit code.

pp. Loudspeaker Paging (does not include paging port) (10-72) is a feature which allows a Centrex station user to dial an access code to activate a customer provided intercom system, but prohibits ringing. The customer provided devices or equipment must be compatible to interface with the Telephone Company's network. Answer back features are described in Code Calling.

qq. Make Busy (10-50) is used to temporarily make a particular Centrex station in a Hunt Group appear busy to incoming callers. Make Busy causes the hunt to skip over a Centrex station during the search for an idle Centrex station.

S10.1 CENTREX II

B. Conditions (Cont'd)

21. (Cont'd)

- rr. Manual Line Service (10-47) is a service-related feature that automatically requests operator assistance upon detection of an origination. Since all origination from lines with this service are routed to an operator no dial tone is returned to the subscriber. This feature does not affect termination to the line.
- ss. Music-on-Hold (10-178) provides a connection to customer-provided recording devices or music source. The customer-provided devices or equipment must be compatible to interface with the Telephone Company's network.
- tt. Network Access Registers (a/k/a Simulated Facility Groups) (10-62) permits the dialing of local and long distance calls to and from a Centrex System. The number of simultaneous calls between the local or long distance network and Centrex System is limited by the number of Network Access Registers to which the customer subscribes. These facilities may be provided as two-way, one-way incoming, one-way outgoing or a combination thereof.
- uu. Off Premises Station enables a secondary business location to access the same Centrex features and services as the main business location. The secondary locations must be served by the same Digital Central Office as the primary location.
- vv. OUTWATS Access (Shared Facility Group) (10-56) is not provided by a dedicated line group, as is traditional OUTWATS. Instead, the OUTWATS traffic shares Network Access Registers with other outgoing traffic. OUTWATS access is provided in conjunction with Dial Access to Private Facilities.

21. (Cont'd)

- ww. Private Branch Exchange Service (PABX) (10-72) is an arrangement of switching equipment and stations, located on the premises of the subscriber, for intercommunicating among the subscriber's stations and for connections through the local and long distance message telephone network to other Directory Numbers.
- xx. Remote Call Forwarding Activation (10-53) provides the capability to activate and deactivate Call Forwarding Variable remotely from any telephone station equipped with touchtone service.
- yy. Restriction Features:
 - (1) Fully Restricted (Originating and Terminating) (10-59) provides fully restricted line feature, in addition to performing the Semi-Restricted functions defined herein. In addition, blocks calls from Centrex stations to the attendant and/or calls from the attendant to stations.
 - (2) Semi-Restricted (Originating and Terminating) (10-59) provides the ability to restrict a business customer group line from originating any calls outside the group and/or receiving any call from outside the group.
 - (3) Toll Restriction blocks the completion of calls that are directed to an outside operator or to numbers outside the local calling area. A Toll Restriction list may be assigned to either an individual line or shared by multiple lines.
 - (4) Unrestricted Service allows a Centrex station user access to the local and toll networks, plus any other service accessible by dialing.

B. Conditions (Cont'd)

21. (Cont'd)

- zz. Single-Digit Dialing (10-58) (10-230) is provisioned in conjunction with Group Numbering Plan and permits a Centrex station user to reach a line or facility, or to access a feature by dialing a single-digit code. The Single-Digit Dialing codes are shared by all users in a Centrex group and pre-programmed by the Telephone Company.
- aaa. Special Intercept Announcements (10-60) provides a unique intercept announcement in instances where a Centrex station user dials an access code, which is undefined, or access is denied due to restrictions.
- bbb. Speed Calling (10-50) allows a Centrex station user to place calls to a previously designated list of frequently dialed numbers (maximum of eight (8) or thirty (30) stored numbers). Accessing of the list is limited to a single Centrex station user of may be shared by a Centrex group. Directory Numbers are placed in the Speed Calling list by direct input from the customer or by Service Order.
- ccc. Three-way Calling (10-52) allows a Centrex station user to add a third party to an existing call, and thus enables a simultaneous conference between parties at multiple locations.
- ddd. Tie Trunk Access (10-61) provides communication links between customer locations served by different central offices or PABXs by dialed access.
- eee. Voice Mail Integration allows calls to be redirected to a voice mail system. Call Forwarding Busy Line and Call Forwarding Don't Answer are provided with this feature along with Message Waiting Notification (stutter dial tone).

S11. BUNDLED SERVICE

This section contains service bundles consisting of exchanges services combined with other communication services. Examples of other communication services that may be included in a bundle with local service are: toll services, voice mail and Internet,

S11.1 GENERAL REGULATIONS

Bundled Services is an optional residential service package that provides the customer with a combination of offerings for one flat monthly rate.

S11.2 REGULATIONS

- A. All bundles consist of the following offerings:
1. Local Exchange line with unlimited free local calling
 2. Choice of at least four custom or CLASS features
 3. Depending on the package:
 - a. Area Calling & Long-Distance: Either 200 or 400 minutes
 - b. Internet: Either dial-up, DSL, or none
- B. All bundle options offer customers a choice of four to unlimited class and custom calling features. This is determined by the choice of the package. The features are listed below:
1. Three Way Calling
 2. Auto Callback
 3. Auto Recall
 4. Call Forwarding
 5. Call Transfer
 6. Call Waiting
 7. Call Wake-up
 8. Caller Id Name and Number
 9. Caller Id with Call Waiting
 10. Customer Originating Trace
 11. Distinctive Ring
 12. Do Not Disturb
 13. Revertive Calling
 14. Ringmaster

S12. GENERAL RULES AND REGULATIONS

S12.1 USE OF SERVICE

A. Abuse or Fraudulent Use of Service

1. The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:
 - a. the use of service or facilities of the Company to transmit a message or to locate a person or otherwise to give or obtain information without payment of the charge applicable for service;
 - b. rearrangement of, tampering with or connection of equipment to the facilities of the Company to obtain, to attempt to obtain or to assist others to obtain service without payment (in total or in part) of regular charges for the service.
 - c. false representation, scheme, trick or device whatsoever intended to avoid payment (in total or in part) of regular charges for the service;
 - d. the use of service or facilities of the Company for a call or calls, anonymous or otherwise, if in a manner reasonably to be expected to frighten, abuse, torment or harass another;
 - e. the use of profane or obscene language;
 - f. the use of the service in such manner as to interfere unreasonably with the use of the service by one or more other customers;
 - g. the impersonation of another;

B. Use of Service for Unlawful Purposes

The service is furnished subject to the condition that it shall not be used for any unlawful purpose.

PRICE LIST

Hayneville Fiber Transport, Inc.
d/b/a Camellia Communications

Section 12
Original Sheet 2

S12. GENERAL RULES AND REGULATIONS

S12.1 USE OF SERVICE (Cont'd)

C. Use of Customer Service

Customer telephone service, as distinguished from public and semi-public telephone service, is furnished only for use by the customer, his family, employees, or business associates, or persons residing in the customer's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a customer's residential premises. The Company has the right to refuse to install customer service or to permit such service to remain on premises of a public or semipublic character when the station is so located that the public-in-general, or patrons of the customer may make use of the service. At such locations, however, customer service may be installed, provided the instrument is so located that it is not accessible for public use.

D. Minimum Contract Period

1. Except as specified elsewhere in this Price List, the minimum contract period is one month from the date service or additions to service are established and the minimum charge is the authorized rate for one month. For purposes of rate administration each month is considered to have 30 days.
2. The Company may require a contract period longer than one month at the same location in connection with special types or arrangements of equipment or for unusual construction necessary to meet specific demands for service.

E. Termination of Service

1. By the Company
 - a. The Company may refuse to furnish, suspend service or terminate the subscriber's contract without suspension of service, or, following a suspension of service, sever the connection and remove any of its equipment from the subscriber's premises upon:
 - (1) Abandonment of the service.
 - (2) Failure of a subscriber to make suitable deposit as required by this Price List.

Section 12
Original Sheet 3

S12. GENERAL RULES AND REGULATIONS

S12.1 USE OF SERVICE (Cont'd)

E. Termination of Service (Cont'd)

1. By the Company (Cont'd)

a. (Cont'd)

- (3) Objection to the furnishing of a service made in writing by or on behalf of any governmental law enforcement agency acting within its jurisdiction, on the grounds that such service is, or will be, used for an illegal purpose;
- (4) Use of a service in such a manner that, in the opinion of the Company, constitutes abuse or fraud or may tend to injuriously affect the efficiency of the Company's plant, property, or service;
- (5) Any other violation of the Company's rules and regulations applying to a subscriber's contract or to the furnishing of a service.
- (6) Non-payment of any sum due the Company for exchange, long distance or other service.

2. At customer's request

- a. Contracts for service may be terminated prior to the expiration of the contract period provided advance notice is given to the Company and upon agreement to pay all charges due for the service furnished which might be applicable.
- b. Where a contract for service with a one month minimum period is cancelled before establishment of the service is completed, a charge not to exceed the service charge specified, is applied if all or a portion of the facilities have been installed.

Original Sheet 4

S12. GENERAL RULES AND REGULATIONS

S12.1 USE OF SERVICE (Cont'd)

E. Termination of Service (Cont'd)

2. At Customer's Request (Cont'd)

- c. No minimum charge will apply (unless otherwise stated specifically in this Price List) where a new customer takes over the service of the former customer provided the service is to be furnished at the same location without interruption and that the new customer assumes all unpaid charges on the original contract. Minimum and termination charges will apply for any service furnished under the original contract which is not retained by the new customer.

F. Resale of Service

The resale of any service, provided by the Company is not permitted except as provided elsewhere in this Price List or as specifically authorized by the Company.

S12.2 ESTABLISHMENT AND FURNISHING OF SERVICE

A. Applications for Service

1. The Company requires either a written or verbal application for all telephone service.
2. Any change in rates or regulations found within this Price List modifies the terms and regulations of the Agreement between the Company and the Customer.
3. The Company reserves the right to refuse service to any applicant who is found to be indebted to the Company or any other Telephone Company in Alabama for service previously furnished until satisfactory arrangements have been made for the payment of all such indebtedness. The Company may also refuse to furnish service to any applicant desiring to establish service for former subscribers of the Company who are indebted for previous service, regardless of the listing requested for such service, until satisfactory arrangements have been made for the payment of such indebtedness.

S12.2 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

A. Applications for Service (Cont'd)

4. If telephone service is established and it is subsequently determined that either condition in 3. above exists, the Company may suspend or disconnect such service until satisfactory arrangements have been made for the payment of the prior indebtedness.

B. Application of Business Rates

1. Business rates apply in offices, stores, factories, institutions, farms which have offices, and at all other places usually recognized as being of a strictly business nature.
2. At residence locations when the customer has no regular business telephone and the use of the service either by himself, members of his household, or his guests, or parties calling him can be considered as more of a business than of a residence nature, which fact might be indicated by advertising, either by business cards, newspapers, hand bills, billboards, circulars, motion picture screens, or other advertising matter, such as on vehicles, etc., or when such business use is not such as commonly arises and passes over to residence telephones during the intervals when, in compliance with the law or established custom, business places are ordinarily closed.
3. Where the place of business and residence of a customer are in the same premises and no telephone is installed in the place of business, the business rate shall be charged for the telephone installed in the residence.
4. At residence locations, when a telephone station or extension bell is located in a shop, office, or other place of business.
5. At any location where the listing of service at that location indicates a business, trade, or profession, except as specified below.

Section 12
Original Sheet 6

S12. GENERAL RULES AND REGULATIONS

S12.2 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

C. Application of Residence Rates

1. Residence rates apply in private residences where business alphabetical or classified telephone directory listings are not provided.
2. In private apartments in hotels, boarding houses where the service is confined to the domestic use of the subscriber and business listings are not employed.
3. At the residence of a clergyman, physician, nurse, mid-wife, dentist, veterinary surgeon or other medical practitioner, provided the telephone is not located in that portion of the subscriber's residence which is used as an office, and provided no business designation is employed. Abbreviated titles such as "Dr.", "Professors", "Rev. ", are not considered business designations.
4. In a private stable or garage when strictly a part of the subscriber's domestic establishment.
5. In a college fraternity house where members of the fraternity maintain residence.

D. Advance Payments

The Telephone Company bills local service in advance. Advance payments may be required for the provision of basic local service or a deposit to establish credit as described in section 25.4 (b) may be required. In any case where construction is required, the Company may, as a guarantee of good faith, collect one year's exchange service charges in advance of the construction. Such advance payment shall be applied against exchange service charges only and shall not operate to prevent the suspension and/or discontinuance of all service for the nonpayment of toll or other charges which may become past due. Should a telephone installed under these conditions be discontinued before the expiration of the period for which advance payment was made, the amount collected shall be considered the minimum charge for the exchange service received.

S12.2 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

E. Customer Billing

1. The customer is responsible for all charges in conjunction with the services furnished him including collect toll messages which have been accepted at the customer's telephone.
2. Monthly recurring charges are billed in advance and toll charges are billed in arrears.
3. Bills are due when rendered unless otherwise specified on the bill and may be paid at any business office of the Company or at any agency authorized to receive such payments. If objection in writing is not received by the Telephone Company within 30 days after the bill is rendered, the account shall be deemed correct and binding upon the subscriber.
4. For billing purposes each month is presumed to have thirty days.
5. The Company may temporarily suspend service in the event the customer fails to pay any amount due. Such suspension shall not be made until at least five days following written or verbal notification to the customer of the intention to suspend service.
6. If any portion of the payment is not received by the Company before the next billing date, or if any portion of the payment is received by the Company in funds which are not immediately available upon presentment, then a late payment charge and/or an interest charge of 1.5% per month, or the highest amount allowed by law, whichever is lower, shall be due to the Company on all charges remaining due and unpaid. A late payment charge is not applicable to subsequent rebilling of any amount to which a late payment charge has already been applied. Late payment charges are to be applied without discrimination.

H. SPECIAL CONSTRUCTION

1. Private Property (See also Section 6, Charges Applicable Under Special Conditions)
 - a. An average amount of entrance and distribution facilities may be furnished by the Company provided the facilities are of the standard type normally furnished for the particular location or kind of service.
 - b. If additional entrance or distribution facilities are required; if the conditions are such as to require special equipment, maintenance or methods of construction; if the stability of the customer has not been established; if the installation is for a temporary or semi-permanent purpose or if for any other reason the construction costs are excessive as compared with the revenue to be derived, the applicant shall be required to pay the costs over and above those applicable for a normal installation.
 - c. The customer will provide the Company without charge written permission for the placing of the Company's facilities on the property.
2. Underground
 - a. When feasible conduit will be furnished by the Company at cost, or conduit may be provided by the applicant subject to the Company's specifications. Conduit used for telephone company facilities may not be used for any other purpose without the consent of the Company. The distance between the conduit and any Electric Light or Power Conduit or Conductor shall be in accordance with the Company's specifications.
 - b. The customer shall be required to pay the entire cost of maintenance of conduit including subsequent excavations and replacements necessary because of damage resulting from negligence on the part of the customer or his representatives or from freezing or improper drainage.

- c. The cost of relocating underground entrance facilities at the customer's request will be borne by the customer.

I. SPECIAL ASSEMBLIES OF SPECULATIVE PROJECTS

- 1. Special assemblies of speculative projects for which provision is not otherwise made in this Price List may be provided where practicable, if not detrimental to any of the services furnished by the Company.

- a. The charge for such facilities may be in the form of an installation charge, a monthly charge, or any combination thereof and will include when applicable, one or more of the following estimated expense items associated with the special service provided:

- (1) maintenance expense
- (2) depreciation expense – including reusable and non-recoverable items
- (3) administration expense
- (4) taxes - including Federal Income Tax
- (5) any other specific items of expense that may be associated with the facility provided
- (6) a reasonable return on investment

- b. The estimated installation cost used in the derivation of the various expense items shall include the following:

- (1) material
- (2) material overhead
- (3) installation labor
- (4) installation labor overhead

 2. In connection with Marketing and Sales studies and/or Marketing and Sales programs, the Company reserves the right to waive service charges within specified areas for such period of time as designated by the Company and upon approval of the Alabama Public Service Commission.

S12.3 ESTABLISHMENT AND MAINTENANCE OF CREDIT

- A. Adjustments for Local Taxing Authority Payments
 1. In the event a municipality imposes, collects or receives from the Company any license, occupational, franchise, privilege, inspection, or other similar tax or fee, or otherwise, whether in a lump sum, or at a flat rate, or based on receipts, or based on poles, wires, conduits, or other facilities, or otherwise, so much of the aggregate amount of such tax or fee as exceeds the sums listed below will be billed, insofar as practical, pro rata to the customers receiving exchange service within such municipality:

<u>Population of Municipality based on Federal census next preceding the year of collection by the Company</u>	<u>Annual amount which will not be billed to customers</u>
1-500	\$23
501-1000	\$38
1001-2000	\$75
2001-3000	\$132
3001-4000	\$188

S12.3 ESTABLISHMENT AND MAINTENANCE OF CREDIT (Cont'd)

A. Adjustments for Local Taxing Authority Payments (Cont'd)

2. In the event a county or other local taxing authority, excluding municipalities, imposes, collects or receives from the Company any license, occupational, franchise, privilege, inspection or other similar tax or fee, or otherwise, whether in a lump sum, or at a flat rate, or based on receipts, or based on poles, wires, conduits or other facilities, or otherwise, the amount of such tax or fee will be billed, insofar as practical, pro rata to the customers receiving exchange service within such county or territory of other local taxing authority.

Note: Nothing in this Price List shall prohibit the billing to customers of the amount of any tax or fee imposed by a county or other local taxing authority at the time of the filing of this Price List.

S12.4 OBLIGATION AND LIABILITY OF THE COMPANY

A. Undertaking of the Company

The Company does not undertake to transmit messages, but offers the use of its facilities, where available, for communication between parties subject to the terms and conditions specified in this Price List.

B. Furnishing of Equipment

1. All equipment necessary for the provision of a given service will be furnished by the Company on a deregulated basis or by the customer except as provided elsewhere in this Price List. The customer may be required to provide suitable housing or other protective measures where equipment is to be installed in locations exposed to weather or other hazards. Commercial power will be furnished by the customer on his premises in suitable outlets when required.

B. Furnishing of Equipment (Cont'd)

2. No equipment, apparatus, circuit or device not furnished by the Company shall be attached to or connected with the facilities furnished by the Company; whether physically, by induction, acoustically or other; except as provided in this Price List or as otherwise authorized in writing by the Company. In case any such authorized attachment or connection is made, the Company shall have the right to remove or disconnect the same or to terminate the service.
3. The provisions of the preceding shall not be construed or applied to bar a customer from using devices which serve his convenience in his use of the facilities of the Company provided any such device so used does not:
 - a. Endanger the safety of Company employees or the public;
 - b. Damage, require change in or alteration of, or involve direct electrical connection to, the equipment or other facilities of the Company, unless as provided for elsewhere in this Price List;
 - c. Interfere with the proper functioning of such equipment or facilities;
 - d. Impair the operation of the communication system;
 - e. Otherwise injure the public in its use of the Company's services.
4. Except as otherwise provided in this Price List, nothing herein shall be construed to permit the use of a recording device or of a device to interconnect any line or channel of the Company with any other communication line or channel of the Company or of any other person.

B. Furnishing of Equipment (Cont'd)

5. Facilities of an electric power company or oil, oil products or natural gas pipe line company, or railroad company, provided primarily to communicate with points located along a right-of-way (including premises of such company anywhere in cities, towns, or villages along the right-of-way) owned or controlled by such company and extending between or beyond exchange areas of the Telephone Company, may be connected with deregulated Private Branch Exchange, station, or regulated private line facilities furnished by the Telephone Company, subject to terms and conditions found elsewhere in this Price List.

C. Furnishing of Service

The Company's obligation to furnish service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary circuits and equipment.

D. Maintenance and Repair

1. All costs associated with the maintenance and repair of regulated services furnished by the Company will be borne by the Company, except as specified elsewhere in this Price List.
2. The Company will be reimbursed for any loss or damage to its facilities on the customer's premise resulting from intentional destruction or any other cause, except from fire or unavoidable accidents.
3. Access to customer's premises, at any reasonable hour, will be given to representatives of the Company for the purpose of inspecting, repairing, testing or removing any part of the Company's facilities.

E. Directories

1. The Company will furnish to its customers, without charge, a directory for each access line. Additional directories will be furnished at the discretion of the Company at a \$5.00 per copy charge. Foreign directories may be provided at a charge.
2. Directories regularly furnished to customers shall remain the property of the Company. No binder, holder, or auxiliary cover, except as provided or authorized by the Company shall be used in conjunction with any directory furnished by the Company.
3. No liability for damages arising from errors in or omissions of directory listings, or listings obtained from the "Information Operator" shall attach to the Company. In the case of additional or extra listings for which a charge is made, its liability shall be limited to the monthly rate for each such listing for the charge period during which the error or omission continues.

S12.5 LIMITATIONS AND USE OF SERVICE

A. Network Facilities for Use with Automatic Dialing and Announcing Devices

1. Subscribers who wish to use automatic dialing and announcing devices for solicitation purposes must do so pursuant to the following terms and conditions.
 - a. No numbers will be called in sequential fashion. Sequentially placed calls refer to those calls automatically dialed by successively increasing or decreasing integers, or similar methods.
 - b. Where facilities permit, the equipment shall be so programmed or utilized in such a manner as to automatically disconnect a called party's line not later than ten seconds after the called party hangs up.

S12.5 LIMITATIONS AND USE OF SERVICE (Cont'd)

- A. Network Facilities for Use with Automatic Dialing and Announcing Devices (Cont'd)
 - 1. (Cont'd)
 - c. Within 20 seconds after the called party answers, the name and telephone number of the individual or firm making or paying for the call, including but not limited to, the name of the individual or firm on whose behalf the call is made, must be clearly stated.
 - d. At the conclusion of the call, the name and telephone number of the individual or firm making or paying for the call, including but not limited to, the name of the individual or firm on whose behalf the call is made, must again be clearly stated.
 - e. If the customer's response is to be recorded, they must be informed of such and permission must be granted.
 - f. If the solicitation call requires a response by the customer and a charge will apply, the customer must be informed that the response is not a free call. The vendor at this time, must give the customer the amount of the charges that will be applied if they respond.
 - g. No calls will be placed to organizations providing emergency services, including but not limited to hospitals, nursing homes, fire departments, and law enforcement agencies.
 - h. No calls will be placed on Sundays or Holidays. No calls will be placed between the hours of 8:00 p.m. and 8:00 a.m., Monday through Saturday.
 - i. The Telephone Company is under no obligation to provide lists of telephone numbers or any directory information other than normally issued telephone directories.
 - j. Messages must not contain obscene or profane language.

Section 13
First Revised Sheet 1

S13. DEFINITIONS

S13.1 DEFINITIONS

ACCESS LINE - A circuit directly connecting the central office switching equipment with the subscriber's termination point.

ADDITIONAL LINE - A circuit connecting a station with another station or a circuit connecting a private branch exchange station with a private branch exchange switchboard. An additional line may terminate on a key in lieu of an instrument.

ADDITIONAL LISTING - Any listing of a name or other authorized information in connection with a customer's telephone number in addition to that to which he is entitled in connection with his regular service.

ALABAMA RELAY CENTER - The Alabama Relay Center permits hearing and speech impaired users of Telecommunications Devices for the deaf (TDD) to communicate with users of ordinary telephones. Communications take place by relaying conversations (Voice to TDD and TDD to voice). These calls are between one party who must communicate by means of a TDD and another who communicates by means of an ordinary telephone. Messages are rated from the rate center of the calling party to the rate center of the called party.

AREA CALLING SERVICE - An optional offering that provides seven digit local calling from the subscribers home wire center to all Company wire centers and participating independent company wire centers within a 40 mile radius within the same LATA, based on airline mileage, in addition to the existing local calling area.

AUXILIARY LINE - An additional individual line main station used for one-way (inward to the subscriber) service.

BASE RATE - A schedule rate for any exchange service which does not include mileage charges.

BASE RATE AREA- The developed sections which are a part of or contiguous to the community in which the exchange is located as set forth in the telephone utility's tariffs and within which specified area local exchange service is furnished at uniform rates without mileage or zone rate charges.

BUSINESS SERVICE - Telephone service furnished to customers where the actual or obvious use is principally or substantially of a business, professional, or occupational nature.

CALL - An attempted or completed communication.

PRICE LIST

Hayneville Fiber Transport, Inc.
d/b/a Camellia Communications

Section 13
First Revised Sheet 2

S13. DEFINITIONS

S13.1 DEFINITIONS (cont'd)

CENTRAL OFFICE - A unit in which connections are made and switching is accomplished between telephone access lines and to the toll network.

CENTRAL OFFICE EQUIPMENT - Switching, transmission and power equipment located within a central office for the purpose of connecting local, EAS and toll calls.

CENTRAL OFFICE LINE CONNECTION CHARGE - The charge in the central office necessary to effect customer requested changes in service, and changing connection in distribution facilities between the central office and the customer's premises, including necessary cross connections and line and station transfers.

CENTREX SERVICE - A service arrangement of dial switching equipment and facilities which permits completion of inward and outward local and long distance calls from stations associated with the system without intermediate handling by the attendant, generally subscribed to by governmental agencies, with Satellite Centrex Service provided at various offices throughout the state. A Satellite Centrex Station is service provided by auxiliary dial switching equipment that is connected, by tie lines, to the dial switching equipment serving the principal location. Attendant's positions are not furnished at satellite locations.

CHANNEL - A path for communication between two or more stations, or central offices, furnished in such a manner as the Company may elect, whether by wire, radio or a combination thereof and whether or not by a single physical facility or route.

CLASS OF SERVICE - A description of telecommunications service furnished a customer which denotes such characteristics as nature of use (business or residence) or type of rate (flat rate, measured rate, or message rate).

COMMISSION - Alabama Public Service Commission.

COMMUNICATIONS SYSTEM - Channels and other facilities which are capable, when not connected to exchange telecommunications service, of two-way communications between customer-provided terminal equipment or deregulated Company provided stations.

COMMUNITY OF INTEREST FACTOR (CIF) - A unit of measurement for determining the feasibility of Extended Area Service. A CIF is arrived at by dividing the total long distance (toll) calls made during a study period by the total number of customers (access lines) of the originating telephone exchanges involved in the study .

PRICE LIST

Section 13
First Revised Sheet 3

S13. DEFINITIONS

S13.1 DEFINITIONS (cont'd)

COMPANY - Wherever used in this Price List, refers to Hayneville Fiber Transport, Inc. D/B/A Camellia Communications unless the context clearly indicates otherwise.

CONNECTING ARRANGEMENT - The equipment provided by the Company to accomplish the direct electrical connection of customer-provided facilities with the facilities of the Company or of facilities of the Company with other facilities of the Company.

CONNECTING COMPANY - A corporation, association, partnership or individual owning or operating one or more exchanges and with which communications services are interchanged.

CONSTRUCTION CHARGE - A separate nonrecurring charge made for the construction of facilities in excess of those contemplated under the rates quoted in the service order schedule.

CONTINUOUS PROPERTY - The plot of ground, together with any buildings thereon, occupied by the customer, which is not divided by public highways or separated by property occupied by others. Where a customer occupies property on both sides of a street, alley, highway, body of water, railroad right-of-way, etc., and the properties would otherwise be continuous, such properties are treated as continuous property provided local wire or cable facilities are used and the customer furnished all local distribution pole line facilities or underground conduit required in connection therewith.

CONTRACT - The arrangement between a customer and the Company under which service and facilities are furnished in accordance with the applicable provisions of the Tariff and Price List.

COST - The cost of labor and materials, which includes appropriate amounts to cover the Company's general operating and administrative expenses.

CUSTOMER - The individual, partnership, association or corporation which contracts for telephone service and is responsible for the payment of charges and compliance with the rules and regulations of the Company.

CUSTOMER PREMISES EQUIPMENT (CPE) - All telecommunications equipment located at a customer's premises (except pay phones).

PRICE LIST

Section 13
Original Sheet 4

S13. DEFINITIONS

S13.1 DEFINITIONS (cont'd)

CUSTOMER PROVIDED TERMINAL EQUIPMENT - Devices or apparatus and their associated wiring, provided by a customer, which do not constitute a communications system and which, when connected to the communications path of the telecommunications system, are so connected either electrically, acoustically, or inductively.

CREDIT CARD - Denotes a billing arrangement by which a long distance call may be charged to an authorized Company credit card number.

DIGITAL SUBSCRIBER LINE - (DSL) is a technology for bringing high-bandwidth information to homes and small businesses over ordinary copper telephone lines.

DATA ACCESS ARRANGEMENT - A protective connecting arrangement for use with the network control signaling unit, or in lieu of the connecting arrangement, an arrangement to identify a central office line and protective facilities and procedures to assure proper operation and protection of the telecommunications network.

DIAL SWITCHING EQUIPMENT - A unit of electro-mechanical or electronic switching equipment used in a central office or in connection with a private branch exchange system.

DIRECTORY ASSISTANCE CHARGE - A charge made for placing request from the Directory Assistance Operators.

DIRECTORY LISTING - A publication in the Company's alphabetical directory of information relative to a customer's name or other identification and telephone number.

DROP WIRE - Paired wires, insulated and under a common cover, which connect a subscriber's line from the terminal on the pole to the point of demarcation on the customer's premises.

DUAL NAME LISTING - Provided for customers subscribing to residence service who share the same surname and reside at the same address, and for a person known by two first names.

EXCHANGE - A geographical area established for the administration of telephone service in a specified area, called the "Exchange Area", which usually embraces a city, town, or village, and its environs. It may contain one or more central offices together with the associated plant, equipment, and facilities used in furnishing communication service within that area.

S13. DEFINITIONS

S13.1 DEFINITIONS (cont'd)

EXCHANGE SERVICE AREA - The territory served by an exchange within which local telephone service is furnished at the exchange rates applicable within that area.

EXCHANGE SERVICE - The furnishing of facilities for the telephone communication within an exchange area, in accordance with the regulation and charges specified in the Tariff and Price List. Exchange facilities are used to establish and maintain connection between an exchange station and the other telephone plant and facilities in connection with long distance calls or extended area service calls.

EXTENDED AREA SERVICE (EAS) - A type of telephone switching and trunking arrangement which provides for unlimited calling between two or more telephone exchanges based on a usage-sensitive structure and/or a flat rate additive, if applicable.

EXISTING CUSTOMER - Reference to existing customer in both the General Exchange Tariff and the Price List means customer as of the date of this Price List.

FACILITIES - All property and means owned, operated, leased, licensed, used, furnished, or supplied for, by or in connection with the rendition of telephone service.

FLAT RATE SERVICE - Service furnished at a fixed monthly charge, including extended area service where applicable which provides unlimited local calling.

FOREIGN ATTACHMENT - Lines, instruments, appliances, or apparatus not owned or furnished by the Company.

FOREIGN CENTRAL OFFICE - Any central office other than that which serves the area in which the customer is located.

FOREIGN EXCHANGE - Any other exchange but that in which the customer is located.

FOREIGN EXCHANGE LINE MILEAGE - the measurement applying to that portion of a central office line connecting customer with a foreign central office, from the common boundary line to the customer's station, for which a monthly charge is made in addition to the base rate for exchange service.

FOREIGN EXCHANGE SERVICE - Telephone exchange service furnished to a customer through a central office of an exchange other than the exchange regularly serving the area in which the customer is located.

S13. DEFINITIONS

S13.1 DEFINITIONS (cont'd)

GRADE OF SERVICE - The term used in describing exchange service with respect to the number of main telephones which may be connected to a central office line. (One-party, two-party, four party).

INDIVIDUAL LINE - An access line designed for the exclusive use of a subscriber.

INITIAL SERVICE PERIOD - The minimum length of time for which a customer is obligated to pay for service, facilities and equipment, whether or not retained by the customer for such minimum length of time.

INSTALLATION CHARGE - A nonrecurring charge applying to the provision of certain items of equipment or facilities as distinguished from the service connection charge applicable for establishment of basic telephone service.

INTERCOMMUNICATING SYSTEM - An arrangement involving two or more stations which enables a user to signal and connect with other stations in the system.

INTEREXCHANGE CHANNEL - That portion of a channel which connects stations in two or more exchanges.

JOINT USE OF SERVICE - An arrangement whereby an individual, firm or corporation whose telephone needs are not such as to justify the provision of separate customer service is permitted to use the service of a customer.

KEY LINE - A circuit connecting a key system with a central office.

KEY LINE TELEPHONE SERVICE - A service that enables access lines to terminate in an expandable multi-button telephone set utilizing common equipment which continuously connects a subscriber to a switching center (exchange) or common carrier operating center. Company provided Key Line Telephone Service equipment is provided on a deregulated basis.

LEASE LINE - A channel tying together two or more points in the exchange area for the sole use of the subscriber. It is terminated at each point on the subscriber owned equipment and is not connected to the central office switching equipment.

First Revised Sheet 7

S13. DEFINITIONS

S13.1 DEFINITIONS (cont'd)

LOCAL ACCESS AND TRANSPORT AREA (LATA) - Geographic area established for the purpose of defining the territory within which a Bell Operating Company may offer its telecommunications services.

LOCAL CHANNEL - That portion of a channel which connects a station to an interexchanging channel or a channel connecting two or more stations within an exchange area.

LOCAL MESSAGE - A completed communication between customer's stations located within the same exchange area or local service area.

LOCAL SERVICE AREA - The area within which telephone service is furnished customers under a specific schedule of exchange rates and without toll charges. A local service area may include one or more exchange areas.

MESSAGE - A completed telephone call regardless of length of call or time and distance involved.

MESSAGE RATE - Local exchange service billed on a per-message basis.

MESSAGE TOLL SERVICE OR MESSAGE TELECOMMUNICATION SERVICE (MTS) - Long distance telecommunications service between exchange areas, categorized as intraLATA/intrastate, intraLATA/interstate, interLATA/intrastate, or interLATA/interstate and rated on a time and distance basis.

MILEAGE - The measurement upon which charges are computed for Foreign Exchange, tie lines and private lines.

MINIMUM CONTRACT PERIOD - The minimum length of time for which a customer is obligated to pay for service, facilities and equipment, whether or not retained by the customer for such minimum length of time.

MISCELLANEOUS COMMON CARRIERS - Miscellaneous Common Carriers, as defined in Part 21 of the Federal Communications Commission Rules, are communications common carriers which are not engaged in the business of providing either a public landline message telephone service or public message telegraph service.

MISCELLANEOUS SERVICE - Service not regularly furnished with the various classes of exchange service.

First Revised Sheet 8

S13. DEFINITIONS

S13.1 DEFINITIONS (cont'd)

MOBILE TELEPHONE SERVICE - A communication service provided by means of radio frequencies through a land radio telephone base station. Connections may be established between a wire station and a mobile or fixed unit or between two mobile or fixed units.

MOVE - A transfer of telephone service from one location to another on the same premise where there is no interruption of service other than is incident to the work involved. Transfers of telephone service from one premise to another, or from location to another on the same premise involving a break in the continuity of service and resulting in cessation of local service charges but not considered as moved but as new service and service charges that may be applicable.

NETWORK CONTROL SIGNALING UNIT - The terminal equipment furnished, installed, and maintained by the Company for the provision of network control signaling.

NETWORK INTERFACE DEVICE (NID) - A standard FCC Registration Program jack or equivalent that is installed by the Telephone Company as part of the network access line on a customer's premises at a location determined by the Company which is accessible to the customer and consistent with FCC Registration regulations governing the location of the network interface. The network interface is located on the customer's premises and serves as the point of connection for all premises services to the telecommunications network.

NETWORK TERMINATING WIRE - Wire installed for network service for a specific customer and used to connect the intrabuilding network cable or the outside plant distribution facilities to the Network Interface.

NEW SUBSCRIBER - Applicants having no basic monthly service or those subscribers changing service premises.

NONLISTED TELEPHONE - An exchange station which has the listing omitted from the telephone directory but listed in the directory assistance records.

NONPUBLISHED TELEPHONE - An exchange station which has the listing omitted from both the telephone directory and directory assistance records at the customer's request.

NON-RECURRING CHARGE - A one time charge associated with certain installations, change or transfer of services, either in lieu of or in addition to recurring monthly charges.

PRICE LIST

Hayneville Fiber Transport, Inc.
d/b/a Camellia Communications

Section 13
First Revised Sheet 9

S13. DEFINITIONS

S13.1 DEFINITIONS (cont'd)

PREMISE - The building, portion or portions of a building on continuous property used and/or occupied at one time by the customer in the conduct of his business or as a residence. Where floor space adjoining buildings is made continuous at one or more floor levels, all floor space in both buildings is considered the same premises insofar as the customer who uses and occupies such continuous floor space is concerned, the two buildings otherwise being considered as separate buildings.

PREMISE VISIT - Applies for all work ordered and requested to be completed at the same time on the same premises.

PREMISE WIRE - All wiring within the same building or between buildings on the same continuous property of a customer and located on the customer's side of the network interface. In the absence of a network interface, all wiring on the customer's side of the first point of connection at a customer's premise. Work performed to install and maintain premise wire will be performed on a deregulated basis effective January 1, 1987 pursuant to the FCC's Second Report and Order FCC Docket No. 79-105.

PRIVATE BRANCH EXCHANGE SERVICE - An arrangement of equipment consisting of switching apparatus with attendant's telephone, trunks to a central office and stations connected with the switching apparatus, providing for intercommunication between these stations and communication with the general exchange and interexchange systems. Throughout this Price List, the commonly used abbreviation "P.B.X." will be substituted for the words Private Branch Exchange. Effective November 1, 1987, Company provided switching equipment and stations will be provided on a deregulated basis.

PRIVATE BRANCH EXCHANGE TRUNK - A circuit connecting a private branch system with a Central Office.

PRIVATE LINE - A circuit provided to furnish communication between two or more instrumentalities directly connected to it. Such instrumentalities do not have access to the general exchange and interexchange networks.

PUBLIC TELEPHONE - An exchange station, either attended or equipped with a coin collecting device, designed and placed for use by the public in general at locations chosen or accepted by the Company.

REGRADE - A change in the classification of service.

RESIDENCE SERVICE - Telephone service furnished to customers when the actual or obvious use is for domestic purposes.

PRICE LIST

Hayneville Fiber Transport, Inc.
d/b/a Camellia Communications

Section 13
First Revised Sheet 10

S13. DEFINITIONS

S13.1 DEFINITIONS (cont'd)

RESTORATION CHARGE - A charge applying to restore service following a temporary suspension of such service for nonpayment of charges.

ROTARY HUNTING - Routes a call to an idle station line in a prearranged group when the called station line is busy. a. Terminal - The hunt always starts with the called station line and ends with the last station line in the prearranged group completing the call to the first idle station line encountered. Unless the first station line is called, only a portion of the group is tested. b. Circular Hunting - The hunt starts with the called station line and always proceeds in a prearranged order to test all lines in the group once, completing the call to the first idle station line.

SEMIPUBLIC TELEPHONE - An exchange station, equipped with a coin collecting device, designed for a combination of customer and public use at locations more or less public in character. Semipublic telephone service is considered as a form of customer service. Effective November 1, 1987, semipublic telephone equipment will be provided on a deregulated basis.

SERVICE CHARGE - A nonrecurring charge applying to the ordering, connecting, moving, changing, rearranging and furnishing of telephone service and other telephone facilities and service.

SERVICE ORDER CHARGE - The charge for receiving and recording information and/or taking action in connection with a subscriber or applicant and processing the necessary data. a. Primary - Applies per customer request for work performed by the Company for the same account. Where more than one account is located at the same premises, work in each individual account will be considered separately. b. Secondary - Applies per customer request for changes in existing service. The charge is specified when applicable to a particular service. This charge is applied to changes in miscellaneous directory listings, credit card applications, and O.C.P.

SUBSCRIBER - See "CUSTOMER".

SUBURBAN AREA - The territory surrounding the base rate area and/or special rate area in which suburban and rural services are furnished at established rates, plus zone charges.

SUSPENSION OF SERVICE - An arrangement made at the request of the subscriber, or initiated by the Company for violation of the Company's Regulations by the subscriber, for temporarily discontinuing service without terminating the service agreement or removing the telephone equipment from the subscriber's premises.

PRICE LIST

Section 13
Original Sheet 11

S13. DEFINITIONS

S13.1 DEFINITIONS (cont'd)

SWITCH - A unit of dial switching equipment which provides interconnection between station lines or trunks.

TARIFF - The rates, charges, rules and regulations adopted and filed by the Company and approved by the Alabama Public Service Commission.

TELEPHONE COMPANY - See "COMPANY".

TELEPHONE NUMBER - A designation assigned to a telephone station or private branch exchange necessary for placing calls to the telephone station or private branch exchange for identification in the assessment of message charges, etc.

TOLL CALL - A call to a point outside the local calling area of an exchange for which a long distance charge applies.

TERMINAL EQUIPMENT - All equipment provided by common carriers and located on customer premises except over voltage protection equipment, coin-operated or pay telephones, and multiplexing equipment to deliver multiple channels to the customer. Mobile radio equipment transmit earth stations are also not considered to be terminal equipment. Effective November 1, 1987, all terminal equipment is provided on a nonregulated basis.

TIE LINE - A circuit connecting two private branch exchange systems for the purpose of interconnection between the stations connected with such systems.

TIE LINE MILEAGE - The measurement on which the rates for tie lines connecting customer's switchboard is based.

TOLL CENTER - A telephone switching center at which the operations (manual or dial) function (message timing, switching, and recording) takes place in connection with the provision of toll message service.

TOLL LINE - A circuit used exclusively for the transmission of messages between points located in different exchange areas where specific charges for each such message are applicable.

PRICE LIST

Section 13
First Revised Sheet 12

S13. DEFINITIONS

S13.1 DEFINITIONS (cont'd)

TOLL MESSAGE - A message between stations in different exchange areas and furnished under the provisions of "Message Toll Telephone Service", Section 4.

A. PERSON TO PERSON TOLL MESSAGE - A toll message in which the user stipulates a desire for communication with a specified person or station at a specified location. **B. STATION TO STATION TOLL MESSAGE** - A toll message in which the user stipulates a desire for communication only with a specified telephone or switchboard. **C. COLLECT MESSAGE** - A toll message in which the user stipulates that the called party accept and pay all charges associated with the message. **D. THIRD NUMBER MESSAGE** - A toll message in which associated charges are billed neither to the calling station nor to the called station, but rather to a station not involved in the message. **E. CREDIT CARD MESSAGE** - A toll message in which associated charges are billed to a credit card number assigned by a telephone company and issued to either the called or calling party.

TOLL RATE - The initial period charge prescribed for toll messages based upon a minimum initial period and distance between exchanges.

TOLL SERVICE - Toll Service (Long Distance Service) is that part of the total telephone service rendered by the Company which is furnished between customers in different exchange areas in accordance with the rates and regulations specified in the Toll Services Section of this Price List.

TOUCHTONE CALLING SERVICE - A classification of exchange service whereby calls are originated through the use of pushbuttons in lieu of rotary dials.

TRUNK LINE - A circuit over which customers' messages are sent between two central offices or between a central office and a private branch exchange system.

UNDERGROUND SERVICE CONNECTION - A customer's "drop" wire which is run underground from a pole line or an underground distributing cable.

WATS ACCESS - Provides for termination of WATS access line.

WIDE AREA TELECOMMUNICATIONS SERVICE - The furnishing of facilities for dial type telephone communications between a wide area service access line and other exchange telephones in the area prescribed in the tariff.

ZONE - One of a series of specified areas, beyond the base rate area of an exchange in which service is furnished at rates in addition to base rates.

PRICE LIST

Section 14
First Revised Sheet 1

S14. DIRECTORY LISTINGS

S14.1 GENERAL

Directory listings encompassed by this Price List are applicable to listings in the alphabetical section in the telephone directory covering the exchange from which such customers receive service.

S14.2 CONDITIONS

- A. Primary listing which may include the name, address and telephone number of the individual, organization, firm or corporation for whom the service has been contracted will be furnished without additional charge.
1. Listings will be limited to such information as is necessary for identification to facilitate use of the service.
 2. The length of a listing may be limited by the use of abbreviations where the clarity of the listing and the identification of the customer will not be impaired.
 3. The Company may refuse to insert any listing, which in its judgment does not facilitate the use of the directory.
 4. Listings are intended solely for the purpose of identifying subscribers' telephone numbers and as an aid to the use of the service. The listing of subscribers without charge in the alphabetical section of the directory does not contemplate special prominence or arrangement.
 5. The Telephone Company, in accepting listings as prescribed by subscribers, or prospective subscribers, will not be a party to controversies between subscribers as a result of the publication of such listings in its directories.
 6. One free listing is provided for each subscriber unless modified by the following conditions:
 - a. In connection with individual line service where there is, more than one subscriber terminal and the telephone numbers are consecutive, and are arranged for trunk hunting service, only one listing is normally furnished.

PRICE LIST

Hayneville Fiber Transport, Inc.
d/b/a Camellia Communications

Section 14
Original Sheet 2

S14. DIRECTORY LISTINGS

S14.2 CONDITIONS

6. (cont'd)

When, in the judgment of the Telephone Company, additional listings are necessary to properly identify the subscriber or would be helpful to his service, they may be furnished without charges provided they do not exceed the number of subscriber terminals. All listings, with or without extra charge, must bear the call number of the first line.

- b. In connection with private branch exchange service, additional listings may be furnished without extra charge when, in the judgment of the Telephone Company, they are necessary to properly identify the subscriber or would be helpful to his service, provided they do not exceed the number of trunk lines. All the listings, with or without extra charge, must bear the number of the first trunk line except listings of those numbers employed in making calls when the private branch exchange operators are not on duty. The listing of a trunk line not consecutive with the series or a listing of the first number of a separate series of trunk lines may be arranged to meet special conditions.
 - c. When, in the judgment of the Telephone Company, the use of reference, or other listings, in excess of the number of listings permitted without extra charge, as set forth above, are needed for better identification in order to facilitate the Telephone Company's operations, such listings may be provided without charge.
7. No listing, with or without charge, will be permitted where such listing is a repetition of any other listing furnished the subscriber.
 8. The Primary listing is ordinarily the name of the individual, firm or corporation which contracts for the service or the name under which the business is regularly conducted, but when the service is contracted for by one party for the use of a second party, the primary listing may be the name of the second party.

PRICE LIST

Hayneville Fiber Transport, Inc.

Section 14
First Revised Sheet 3

S14. DIRECTORY LISTINGS

S14.2 CONDITIONS

9. Listings of clergymen, physicians, surgeons, dentist, veterinary surgeons, professors, government officials, etc, may, for the purpose of identification, include abbreviated designations of titles. Also the title "Mrs." or "Miss" is permitted. Degrees are permitted when they serve as a means of better identification.
 10. A designation consist of a word, or phrase, abbreviated where necessary, used to describe the general character of the subscriber's business. Designations will not be used where the name under which the subscriber is doing business is sufficient to indicate the character of the business.
 11. A trade name made up by adding a term such as Company, Agency, Shop, Works, etc., to the name of the commodity or service will not be accepted as a listing, unless the subscriber shows satisfactory evidence that he is authorized to do business under the trade name.
- B. Additional Name listings in excess of those permitted without extra charge and additional line matter, are furnished at rates shown in this schedule.
1. Additional business listings may be furnished in the names of partners or members of the firm if the subscriber or joint user is a partnership or a firm; the names of officers of the corporation, if the subscriber or joint user is a corporation; and for any business establishment, the names of associates or employees of the subscriber or joint user. Business additional listings may also be the names of individuals, firms, or corporations which the subscriber or joint user owns, or controls, or is duly authorized to, and actually does represent.
 2. Additional residence listings may be furnished in the names of relatives including those by marriage, domestic employees of the subscriber or other persons residing in the subscriber's house who are recognized as a part of the subscriber's domestic establishment.
- C. Indented listings are employed where a subscriber has more than one listing for service under the same name at one or more locations. There is no charge for indented or caption listings. Names of individuals are not permitted in indented listings of this type.

PRICE LIST

Section 14
First Revised Sheet 4

S14. DIRECTORY LISTINGS

S14.2 CONDITIONS

- D. An alternate call listing refers a calling party to certain other telephone numbers after business hours or on Sundays or holidays or if there is no answer on the first listed number. Where the alternate call number is to be that of another customer, the listing will be furnished only with written approval of the other customer.
- E. A foreign or non-customer listing may be furnished customers requesting that their listing be included in a directory of an exchange other than that from which service is rendered.
- F. Unlisted service is the withholding of a customer's listing from the printed telephone directory. The number may be obtained from the information operator.
- G. Non-published service is the withholding of a customer's listing from both the telephone directory and information records.
 - 1. When non-published service is to be furnished, the customer will hold the Company harmless from any damages which might arise, and will absolve the Company from any responsibility for the failure of the customer to receive calls because of the nonpublished listing.
 - 2. The telephone number, name and address of the subscriber may be disclosed in connection with E-911 service, whether such service is provided by the Company or any other person. The subscriber waives any privacy interest in his telephone number, name and address in connection with E-911 service.
- H. Charges for listings begin with the date directory assistance records are posted, and are payable in the same manner as are charges for exchange service. Directory assistance records are posted at the time application for the listing is made, or at the time of the directory delivery, as the subscriber may desire.
- I. Telephone directories are provided by the Telephone Company on the following basis:
 - 1. Where the Telephone Company provides the customer equipment one copy is furnished for each telephone at no charge.

PRICE LIST

Hayneville Fiber Transport, Inc.
d/b/a Camellia Communications

Section 14
First Revised Sheet 5

S14. DIRECTORY LISTINGS

S14.2 CONDITIONS

2. Where the customer provides his own equipment one copy is furnished for each subscriber line at no charge.
 3. Copies in addition to those in paragraphs 1 and 2 above are furnished at the rates specified in the "National Directory Price List."
- J. Service may be temporarily suspended at the subscribers request for a period of not less than two months nor more that nine months. Calling parties will be informed that service has been temporarily suspended at the subscriber's request. The subscriber's listing, including telephone number, will be continued in the telephone directory and in the directory assistance files.
1. The monthly charge for this directory reservation service is one half the subscriber line rate shown in Section 2.7 of this Price List.
 2. Service charges as shown in Section 6 apply to the subsequent re-establishment of regular service.
- K. All listing charges are automatically discontinued upon the termination of subscriber line service. Charges for additional listing are also discontinued when, (a) the listed party dies, (b) when the listed party subscribes for similar exchange service, (c) when the listed party moves from the premises at which the exchange service is furnished. Minimum charge for additional listing is the amount of such charges for one full directory period.
- L. Reference listings may be furnished to subscribers who change their name, absorb other business or subdivided their businesses and have authority to continue the use of the old names; and in other cases when, in the judgment of the Telephone Company, they are considered necessary and are not intended for advertising purposes. Such listings are furnished at the regular rate for additional listings.

B. Timing of Calls

1. Billing for calls placed over the Company's network is based in part on the duration of the call as follows, unless otherwise stated in this Price List:
 - a. Call timing begins when the called party answers the call (*i.e.*, when two way communications are established.) Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.
 - b. Chargeable time for calls ends when one of the parties disconnects from the call.
 - c. For billing purposes, usage after the initial period varies by service and is specified by product or option in subsequent sections of this Price List.
 - d. For billing purposes, usage after the initial period varies by services and is specified by product or option in subsequent sections of this Price List.
 - e. The Company will not bill for unanswered calls. When a Customer indicates that he/she was billed for an incomplete call, the Company will reasonably issue credit for the call.

C. Hometown Advantage and Hometown Advantage Plus Services

Hometown Advantage and Hometown Advantage Plus services are available for Customer use 24 hours a day, 7 days a week. Service is accessed through standard business or residential switched access lines. The Customer is responsible for obtaining suitable access from the Customer's local exchange carrier. All costs incurred in the installation and use of local access lines is the responsibility of the Customer.

Rates, billing increments, and qualifications, if applicable, carry by plan and are provided in the following sections:

5. Calling Card Service

Hayneville Long Distance provides Calling Card services through the use of a dedicated calling card. Access to the long distance network with the card is through the use of a special 1-800 (800, 877 or 888) number. All calls placed via the calling card will be billed under the calling card label thereby identifying the calling card user.

All calling Card calls are billed in six second increments with a minimum thirty second calling duration. In order to initiate an Interstate call the user dials as follows:

- a. Dial Hayneville Long Distance's network via the 1-800/ (800, 877 or 888) access number
- b. Receive the Voice Prompt for the Authorization Number
- c. Enter the 10 digit ID or Authorization number
- d. Receive a tone
- e. Enter the desired phone number

Additional calls can be initiated by simply holding down the “#” sign at the end of each call for two seconds to release the current call and set up for the next desired phone number. This eliminates the need to hang up the phone and re-dial the 1-800 access number and the 10-digit authorization number.

Hayneville Long Distance also provides Cash Guard Service to its calling card customers. This service allows a Customer of Hayneville Long Distance to set a dollar amount limit on a card by card basis. When the customer reaches his/her pre-assigned dollar limit, Hayneville Long Distance will allow the Customer to complete the call in process before blocking any further calls using that card.

Directory Assistance - available to Customers of Hayneville Fiber Transport, Inc. Directory Assistance charges apply to each call to the Directory to the Directory Assistance Bureau Up to two requests may be made on each call to Directory Assistance. The Directory Assistance charge applies to each call regardless of whether the Directory Assistance Bureau is able to furnish the requested telephone number.

Directory Assistance, per call \$1.20

S17.3 PROMOTIONS

From time to time the Company shall, at its option, promote subscription or stimulate network usage by offering to waive some or all of the nonrecurring or recurring charges for the Customer (if eligible) of target services for a limited duration. Such promotions shall be made available to all similarly situated customers in the target market area.

S17.4 CONTRACT SERVICES

At the option of the Company, services may be offered on a contract basis to meet specialized requirements of the Customer not contemplated in this Price List. The terms of each contract shall be mutually agreed upon between the Customer and the Company and may include discounts off of rates contained herein, waiver of recurring or nonrecurring charges, charges for specially designed and constructed services not contained in the Company's general service offerings, or other customized features. The terms of the contract may be based partially or completely on the term and volume commitment, type of originating or terminating access, mixture of services or other distinguishing features. Services shall be available to all similarly situated Customers for a fixed period of time following the initial offering to the first contract Customer as specific in each individual contract.

S17. HAYNEVILLE LONG DISTANCE

S17.5 INTERNATIONAL LONG DISTANCE

A. General

Service between the U.S. Mainland and the Company as specified in this Price List. Rates apply for all days of the week, including holidays.

The Customer is ultimately responsible for all charges. Each Customer is charged individually for each call placed through Hayneville Long Distance's network.

B. Timing of Calls

1. Unless otherwise indicated in this Price List, calls are timed by the Company in six (6) second increments unless stipulated by the Company in this Price List. "Ring Busy" and "Ring-no-answer" calls will not knowingly be charged to the Customer and if charged in error, will be credited by the Company to the Customer. Timing begins at the "starting event" and ends at the "terminating event" unless otherwise specified. Time between the starting event and the terminating event is the call duration. The minimum call duration for a completed call is six (6) second, unless otherwise specified.
2. The starting event occurs when the Company's terminal experiences an "Incoming Signaling Protocol Successful", *i.e.*, upon the seizure of an inbound trunk.
3. The terminating event occurs when the Company's terminal receives a signal from the Local Exchange Carrier that either the calling party or the called party has hung up.
4. There shall be no charge for unanswered calls. Upon receiving reasonable and adequate notice of billing from a Customer for any such call, the Company may issue a credit in an amount equal to the charge for the call. Calls that are in progress longer than six (6) second will be presumed to have been answered.
5. Message Telecommunications Service rates are quoted in terms of initial and additional increments. The initial period is the first stated timed increment or any fraction thereof after connection is made. The additional period is each stated timed increment or any fraction thereof after the initial period. Timing increments for billing are shown in rate schedules in this Price List.

C. Method of Applying Rates

1. Unless specified otherwise in this Price List, the duration of each call for billing purposes will be rounded off to the nearest higher billing increment.
2. Any rate application that results in a charge expressed in fractional cents will be rounded up to the nearest whole cent.

D. Promotional Discounts

The Company may from time to time offer promotional discounts. Such discounts will be for a specified period of time, will not exceed published rates, and will be offered to all qualifying Customers on a non-discriminatory basis, under any rules prescribed by the Commission.

E. Dialed Message Telecommunications Services

1. Depending upon the service option chosen by the Customer, the charges for the use of such international communications facilities may be based upon the time of day, the total minutes of use and/or the distance of each call.
2. All Customers shall be charged the rates identified in Sections 4 and 5.

F. Availability of Service

The Service is available, where technically feasible, at the rates listed in Sections 4 and 5, through subscription to any of the message telecommunication service offerings available from the Company. Each of these offerings utilize the same rate schedules but have different rates and billing increments for each of the rate schedules as indicated in the rate schedules.

8. Account Code Service is available to Customers served from locations within the mainland United States. Originating locations for calls placed to the Company's toll-free number services must be within the mainland United States, Alaska, Hawaii, Puerto Rico and the U. S. Virgin Islands.
9. Customers are billed based on their use of the Company's network and services. Charges may vary by service offering, mileage band, class of call, time of day, day of week, and/or call duration.

B. Timing of Calls

1. Billing for calls placed over the Company's network is based in part on the duration of the call as follows, unless otherwise stated in this Price List:
 - a. Call timing begins when the called party answers the call (*i.e.*, when two way communications are established.) Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.
 - b. Chargeable time for calls ends when one of the parties disconnects from the call.
 - c. For billing purposes, minimum call duration periods vary by service and are specified by product or option in subsequent sections of this Price List.
 - d. For billing purposes, usage after the initial period varies by services and is specified by product or option in subsequent sections of this Price List.
 - e. The Company will not bill for unanswered calls. When a Customer indicates that he/she was billed for an incomplete call, the Company will reasonably issue credit for the call.

C. Hometown Advantage Service (Cont'd)

4. Hometown Advantage Personal 800 Service

Hometown Advantage Personal 800 is a service designed for 800 numbers and offers an alternative to traditional inbound toll-free services. The toll-free pin (personal identification service) service allows for a shared toll-free access number while assigning PINs to the end user.

Each subscriber will be assigned a four digit personal identification number (PIN) - as many as they need.

To obtain the service the user dials the toll-free access number, enters the four-digit PIN at the prompt and is connected to its pre-assigned destination. The customer can place multiple calls by pressing the "*" key at the end of its call and then entering the next PIN number at the prompt.

The initial period for the billing of Toll-Free Inbound Service with Pin is thirty (30) seconds. Additional billing periods are measured in six (6) second increments.

NON-RECURRING INSTALLATION CHARGE: \$0.00

MONTHLY RECURRING CHARGE: \$0.00

First Revised Sheet 7

S18. CAMELLIA LONG DISTANCE

S18.1 INTERSTATE LONG DISTANCE (Cont'd)

C. Hometown Advantage Service (Cont'd)

5. Calling Card Service

Camellia Long Distance provides Calling Card services through the use of a dedicated calling card. Access to the long distance network with the card is through the use of a special 1-800 (800, 877 or 888) number. All calls placed via the calling card will be billed under the calling card label thereby identifying the calling card user.

All calling Card calls are billed in six second increments with a minimum thirty second calling duration. In order to initiate an interstate call the user dials as follows:

- a. Dial Camellia Long Distance's network via the 1-800/ (800, 877 or 888) access number
- b. Receive the Voice Prompt for the Authorization Number
- c. Enter the 10 digit ID or Authorization number
- d. Receive a tone
- e. Enter the desired phone number

Additional calls can be initiated by simply holding down the “#” sign at the end of each call for two seconds to release the current call and set up for the next desired phone number. This eliminates the need to hang up the phone and re-dial the 1-800 access number and the 10-digit authorization number.

Camellia Long Distance also provides Cash Guard Service to its calling card customers. This service allows a Customer of Camellia Long Distance to set a dollar amount limit on a card by card basis. When the customer reaches his/her pre-assigned dollar limit, Camellia Long Distance will allow the Customer to complete the call in process before blocking any further calls using that card.

USAGE CHARGES: The following rates apply to usage terminating from the mainland United States Alaska, Hawaii, Puerto Rico and the U.S. Virgin Islands.

PER MINUTE RATES	
INITIAL MINUTES	EACH ADDL. MINUTES
\$0.25	\$0.25

A surcharge of \$.35 per call will be billed for calls made from a paystation.

6. Debit Card Service (Prepaid Cash)

Debit cards allow customers to pre-purchase a fixed number of minutes or dollars of long distance service. Customers dial a dedicated 1-800 (800, 877 and 888) number to access the service and each debit card will be assigned a PIN number. The card can be bought in denominations of forty (40) to one hundred and twenty (120) minutes or in a specific dollar amount and expire when the minutes or dollars are used in full.

USAGE CHARGES:

Per Minute Rate: \$.35

A \$.35 surcharge applies to payphone calls terminating to an 800 number.

7. Account Codes

Hayneville Long Distance offers account codes to track and manage long distance expenses. It can be used for identifying profit/cost centers, monitoring calling patterns , tracking usage and costs to a specific department, individual, client, application or project basis and as a security feature. Customized account codes are available from two to eight digits.

Section 18
Second Revised Sheet 10

S18. CAMELLIA LONG DISTANCE

S18.2 INTERNATIONAL LONG DISTANCE (Cont'd)

B. Timing of Calls

1. Unless otherwise indicated in this Price List, calls are timed by the Company in six (6) second increments unless stipulated by the Company in this Price List. "Ring Busy" and "Ring-no-answer" calls will not knowingly be charged to the Customer and if charged in error, will be credited by the Company to the Customer. Timing begins at the "starting event" and ends at the "terminating event" unless otherwise specified. Time between the starting event and the terminating event is the call duration. The minimum call duration for a completed call is six (6) second, unless otherwise specified.
2. The starting event occurs when the Company's terminal experiences an "Incoming Signaling Protocol Successful", *i.e.*, upon the seizure of an inbound trunk.
3. The terminating event occurs when the Company's terminal receives a signal from the Local Exchange Carrier that either the calling party or the called party has hung up.
4. There shall be no charge for unanswered calls. Upon receiving reasonable and adequate notice of billing from a Customer for any such call, the Company may issue a credit in an amount equal to the charge for the call. Calls that are in progress longer than six (6) second will be presumed to have been answered.
5. Message Telecommunications Service rates are quoted in terms of initial and additional increments. The initial period is the first stated timed increment or any fraction thereof after connection is made. The additional period is each stated timed increment or any fraction thereof after the initial period. Timing increments for billing are shown in rate schedules in this Price List.

C. Method of Applying Rates

1. Unless specified otherwise in this Price List, the duration of each call for billing purposes will be rounded off to the nearest higher billing increment.
2. Any rate application that results in a charge expressed in fractional cents will be rounded up to the nearest whole cent.

D. Promotional Discounts

The Company may from time to time offer promotional discounts. Such discounts will be for a specified period of time, will not exceed published rates, and will be offered to all qualifying Customers on a non-discriminatory basis, under any rules prescribed by the Commission.

E. Dialed Message Telecommunications Services

1. Depending upon the service option chosen by the Customer, the charges for the use of such international communications facilities may be based upon the time of day, the total minutes of use and/or the distance of each call.
2. All Customers shall be charged the rates identified in Sections 4 and 5.

F. Availability of Service

The Service is available, where technically feasible, at the rates listed in Sections 4 and 5, through subscription to any of the message telecommunication service offerings available from the Company. Each of these offerings utilize the same rate schedules but have different rates and billing increments for each of the rate schedules as indicated in the rate schedules.
